East Liverpool Was Very Much In Evidence—Mrs. Weigand Wound Up her Testimony and Her Husband Had a Hard Time of It on the Stand—The Defense is Making a Strong Fight, But Prosecutor Speaker is Making the Battle of His Life—Robison's Friends Will Introduce Some Sensational Features While the Prosecution Will Have Experts Galore In Rebuttal.

LISBON, June 15.—[Special]—At 2:45 yesterday afternoon defense and state announced themselves content with the jury, which had taken over five hours to obtain. The jury was then sworn by Clerk King, every member, with one exception, taking the usual oath. The jury complete is as follows:

Joseph Driggs, Yellow Creek; James Cornell, Perry; I. N. Sittler, Salem; Ira Kannell, Unity; W. S. Anglemeyer, Salem; C. Kellar, Center; James Sears, Perry; Samuel Johnson, Salem; Clark Zimmerman, Salem; Walter Garthwaite, Salem; R. G. Harbaugh, Center; J. R. Mitchell, Center.

Prosecutor Speaker made the opening statement of the case to the jury from the standpoint of the state covering the ground from the time that Zacharias Robison stepped into the Cleveland and Pittsburg station until he was taken into custody for the murder of his wife for alleged infidelity. Concerning the insanity plea, on which the defense will base its case, Prosecutor Speaker said:

"We expect to show you that Robison was the same man that night that he had been for years; that he came directly from Pittsburg with murder in his heart, expecting with malice premeditated to take the life of his wife."

"Gentlemen of the jury," said Judge Young, opening the statement for the defense. "Robison denies that with deliberation or premeditated malice he took the life of his wife, and the state must prove to you that he did. He denies that he killed her, and I say to you the probabilities are that no human will ever know how she came to her death. Her lips are closed. I think that the defendant himself does not know today just what happened in that room on the night of April 24. It is an old maxim gentlemen to speak naught but good of the dead, but it is a fact that soon after the marriage of the defendant to his wife, she developed a taste for sporting, soon inducing her husband to sell their little home and use the proceeds to pay for boxing lessons. From this she drifted on to being a professional pedestrian, and witnesses will prove to you that at the time of her death she was a regular athlete. During all these years Robison retained his affection for her and was as a slave in her hands. I think the testimony will show that she assaulted him. When Robison's son saw unmistakable evidences

of infidelity and called his father's attention to it, he in his blind infatuation would not listen to it, as she could, by using her influence, smooth everything over. A year or so ago she took a violent fancy to young man named Stewart, bringing him to her husband's home, where he lived to the time of her death, with no apparent means of earning a livelihood and at her expense. Within the year the son again went to the father with proof of her infidelity, and it was again rejected. Matters went on thus until the walking match in Liverpool, when Stewart came into the Robison home in Pittsburg and hung up his coat before he went up stairs. Robison secured the letter which will be brought out during the trial, and was thrown into a frenzy of excitement. He made three copies of the letter and left for Liverpool, saying that he was going to bring his wife home. We will show that the absolute proof of his wife's infidelity was enough to turn his brain. Just what occurred in the room will never be known. I am satisfied that something took place there of which Zacharias Robison never had any knowledge, and never will have. Our claim will be that he is not responsible for anything that occurred, because he was mentally deranged. Infinitely he has been one of God's unfortunates, starting in life with epilepsy. For years he has been subject to falling fits and we will show you the source from which he inherited the trouble. We will have reputable physicians who will testify to the condition of his brain; that he will not recover, but such as will speedily result in his death."

### THE TESTIMONY.

As Usual, Mr. Farmer Was the First Witness.

The witnesses for the state were sworn at 3:45 o'clock, and I. P. Farmer, county surveyor, was the first called. He placed before the jury a diagram of the Hotel Grand and retired.

Mrs. Agnes Weigand, one of the chief witnesses for the state, was called to the stand.

"Are you acquainted with the defendant?" asked Mr. Speaker.

"Yes sir, I have known him three years."

"What do you know of Mrs. Robison taking part in walking matches?"

"Yes, she took part in a good many,

and was in the contest at Liverpool. She came to Liverpool on Monday evening and came directly to my room."

"Where was you on the afternoon of April 24?"

"I was in her room at the Hotel Grand with Mrs. Robison, Mr. Weigand and Edward Wilson. When I opened the door to go to my room I met Robison standing there. He spoke to me and asked me where Alice's room was. I told him right here. He went right in her room, and Alice spoke to him and shook hands and told him she was glad to see him. She also inquired about the folks at home, and he told her they were all right. I left them, Weigand and Wilson following me in a few minutes and they were alone."

"What was she doing when you left?"

"She was packing her trunk, getting ready to go home the next morning."

"When did you next see Robison?"

"In about 10 minutes he came to the door of my room, and asked if she ever received letters from Stewart. I told him she never did except from himself." He said she had been unfaithful and called her the vilest of names. While he was talking Alice came to the door of the room and asked him to come to her room, as she wanted to see him."

"Did Robison go with his wife?"

"Yes, he followed her through the door of their room."

"Did you have another conversation with her?"

"Yes, I saw her once more, and advised her to keep away from Robison, as I had seen a revolver. I went to her room to tell her this when she was alone. Weigand and Robison had gone down to the rink. They returned in a short time, and Robison went into his wife's room."

"What did you next hear?"

"I heard someone trying the knob of the door, and I then heard a shot."

"Were you there when Weigand knocked on the door?"

"No, sir."

To this time the witness had been calm. Judge Young began the cross-examination, and a severe one it proved to be.

"How long have you known Mrs. Robison?" he asked.

"About 10 years; we were like sisters. I hadn't seen her for two years, until a week before we went to Liverpool. She was living with her husband on Bennet street, in Wilkinsburg."

"What is your name?"

"My maiden name is Aggie McShane. My married name, Aggie Weigand, and my name in the match is Aggie Harvey."

"When Robison came to the door of her room she said 'you didn't want to come to Liverpool did you, but I coaxed you.' Robison asked her if she wanted to see him and she said she did, and he said he wanted to see her, too. I didn't hear any scuffle in their room before the shot."

"Did you not say before the grand jury that you heard something fall against the door?"

"Yes, it sounded like a rattle against the door."

"Did you see Mrs. Robison after Robison went to the rink?"

"Yes, she came out in the hall and told the porter if any mail came for her to give it to me or put it in his pocket."

"Who was at Robison's when you went to get Mrs. Robison to go to Liverpool?"

"Alice and his sons."

"You asked her to go to Liverpool?"

"Yes."

"What did she say?"

"She said to wait until he came home, and she would see. He came in half an hour and we staid for supper."

At this point the witness identified the revolver and putty knife found upon Robison.

"Did you see Stewart and Robison that day?"

"No sir."

Court adjourned until this morning with Mrs. Weigand still on the stand.

### THIS MORNING

The Prisoner Looked as Though He Had Not Slept So Very Well.

LISBON, June 15.—[Special]—Attorney Potts and Clerk King were the only persons in the court room this morning when Deputy Bick opened the door and allowed Robison to enter. He walked to his seat without a word but later asked the deputy a question or two about the map which hung on an easel.

When court opened this morning, Mrs. Weigand was called to the stand and the cross examination continued. She acknowledged that she was excited at the inquest.

Mr. Potts asked if the testimony at that time was taken in shorthand, but Mrs. Weigand didn't know. She denied that she had signed the statement made at the inquest, although she recognized her handwriting when it was shown her.

"I met Robison seven years ago in Pittsburg, and would see him every year or two," said James Weigand. "I knew his wife about the same time, and I saw Robison at his house about a week before we went to East Liverpool. My wife was with me. Mrs. Robison asked if she could go to the match in East Liverpool, and Robison said she could. Mrs. Robison was met at the station and I saw her at the match that evening while I was walking. After the match that night my wife and Mrs. Robison came back. Robison reached there Saturday afternoon, and I saw him at room 27, his wife's room. He was coming in the door, my wife and I being in the room. Mrs. Weigand saw him first. Mrs. Robison spoke first, asking him how he left things at home. He said, 'whom do you mean, your lover?' I did not hear what she said and left the room. I think I walked out there at once to my own room. I next saw Robison five minutes later when he entered my room. I think my wife had left the room. Mrs. Robison and her husband were left together in room 27. He came into my room when Mrs. Weigand and myself were there. We stayed there five minutes, Robison leaving first. I left Mrs. Weigand there. He came back from his wife's room before I left. He remained in the room about five minutes. He went back to room 27 after we had walked about the town. Weigand corroborated his wife's statement concerning the noise in the room."

"After the shot was fired I went into the room. Mrs. Robison was lying on the floor and he was kneeling beside her sponging her eyes. Robison said it was only a flesh wound and I told him he had better give the gun to Parry. Parry and I both came out after Parry got the revolver. Donaldson telephoned for Doctor Ogden, who immediately said there was no hope."

"Was there any change in Robison's appearance on this announcement?"

"No, there was not."

"I have lived in Pittsburg all my life," said the witness on cross examination.

"For the past eight years I have worked for Mr. Davis, selling tickets."

"Have you ever been convicted of any crime?"

"I was arrested once in Liberty street."

"I saw Mrs. Robison at her home concerning the walking match in Liverpool. My wife was with me. I saw her once after that on the street, in Pittsburg, and talked to her."

"Who was in room 27 when Robison came in?"

"Mrs. Robison, Wilson, and my wife and I."

"Who did the rubbing after the races?"

"I don't know. I don't think Mrs. Robison did any. When Robison and I left the hotel that afternoon we went to the rink. He had agreed to take charge of the races that night. We went from there to Geon's saloon and from there to the hotel bar. I would not swear just what we drank."

"Robison seemed friendly, did he?"

"Yes, he did."

"Did you hear any noise after Robison went into his wife's room?"

"No, I did not."

"Did your wife say to you that she heard a noise?"

"My wife told me that she heard a noise that sounded like someone against the door, and I went into the hall."

"Where did you go after the shot was fired?"

"I went downstairs into the bar and told George Parry, and we went up."

Edward G. Wilson was the next witness, and testified as follows: "I reside in Allegheny, and supervised the walking in East Liverpool for Mr. Allen, of Pittsburg. I was in the Hotel Grand in room 27 on the day of the tragedy. Mrs. Robison, Weigand and Mrs. Weigand were there. Mrs. Weigand opened the door when Robison came."

"Who spoke first when Robison came into the room?"

"Mrs. Robison said hello to him and asked him how things were at home. 'Who do you mean,' said Robison, 'your lover.' He did not seem excited."

"Did you hear any conversation between them concerning her coming to the race?"

"Yes, they talked of it, but I paid no attention."

On cross examination he was asked by Prosecuting Speaker:

"How long have you been engaged in managing these races?"

"This is the second."

"How long have you known Mrs. Robison?"

"I think about ten days before I came to East Liverpool."

"Who took personal charge of Mrs. Weigand?"

"Her husband, and Robison took charge of Mrs. Robison. I was with Weigand on the afternoon of April 24, but was not drinking much. When I was in room 27 Weigand and his wife were with me. When Mrs. Weigand opened the door to go out, Robison was standing there. He had not knocked or I would have heard him."

"Did she say, 'My God, look at this?'"

"She made some remark. I think she said, 'Look at this.' She came in, and she spoke to him and introduced me. She told him I was the manager of the race."

"Was he willing that a physician should be sent for?"

"No, he said that it was not necessary, that it was only a flesh wound. He gave the revolver to Parry. He had it in his right hip pocket. I was in the hall at the head of the stairs when Robison was taken out."

On cross examination witness testified that Robison went over to where the dying woman lay and said: "That was a lucky shot for me." He then stooped down and kissed her.

Will Stewart, proprietor of the Hotel Grand, saw Robison on the afternoon of the shooting in the office. "I didn't know him then. When Weigand came down and said that Robison had shot his wife in 27 I called the officers. When Doctor Ogden came I met him on the stairs. Robison was perfectly quiet. I heard Robison say he wouldn't have any expense getting a doctor."

"What was his appearance?"

"He was cool. I don't think he was drinking."

Robert Donaldson—I was at the 3:46 train for Pittsburg when Robison arrived in East Liverpool. I am porter at the Hotel Grand. I heard him asking for Weigand at the hotel when I was shining Senator Blake's shoes. When I went into room 27 after the shooting was over, Robison was kneeling down by his wife and was bathing her forehead. She was lying on the floor with her head toward the door. I asked him why didn't you take into consideration a couple of times before you shot. I asked him if she would live, and he said: 'Why certainly. The only thing I am sorry about is that I came so wide of the mark.' He wanted me to read the letter. I looked at it and saw that it started, 'My Darling.' I didn't read any more. He told me to take it to the light and read it, but I sat still."

"You take care of the mail at the Grand, I believe?"

"Yes, sir."

"Did you receive any for Mrs. Robison while she was there?"

"I did not."

"Did Mrs. Robison say anything to you about her mail?"

"She did."

"I had not been in the habit of getting her mail. She said for me to get it that day; give it to her or Mrs. Weigand. I was going downstairs for beer for Mrs. Weigand, but I left the jug in the bar and got the mail. Later I bought 10 cents worth of beer. It was almost three quarters of an hour afterward that Weigand came and said Robison has shot his wife."

The cross examination was very severe, Judge Young following every point in a vigorous manner.

Donaldson related his experience after he was admitted to the room in which the shooting occurred.

"When he handed me the letter," said the witness, "I told him I did not want to read it. He was bathing her head with a towel. I was not excited. I did not say I felt like jumping out of the window to George Viney. That's a gag on me."

"It was 5 o'clock in the evening when Weigand came into the bar and said for

"You take care of the mail at the Grand, I believe?"

"Yes, sir."

"Did you receive any for Mrs. Robison while she was there?"

"I did not."

"Did Mrs. Robison say anything to you about her mail?"

"She did."

"I had not been in the habit of getting her mail. She said for me to get it that day; give it to her or Mrs. Weigand. I was going downstairs for beer for Mrs. Weigand, but I left the jug in the bar and got the mail. Later I bought 10 cents worth of beer. It was almost three quarters of an hour afterward that Weigand came and said Robison had shot his wife."

The cross examination was very severe, Judge Young following every point in a vigorous manner.

Donaldson related his experience after he was admitted to the room in which the shooting occurred.

"When he handed me the letter," said the witness, "I told him I did not want to read it. He was bathing her head with a towel. I was not excited. I did not say I felt like jumping out of the window to George Viney. That's a gag on me."

"It was 5 o'clock in the evening when Weigand came into the bar and said for

# TO ANNEX HAWAII.

Our Recent Dispatch Confirmed at Washington.

## THE TREATY ALREADY FRAMED.

President McKinley Very Likely to Soon Sign the Document, as It Drawn Up According to His Own Idea—What It Contains—News of Washington.

WASHINGTON, June 15.—Now comes confirmation of the news printed in these dispatches last Thursday that the administration has in view the annexation of Hawaii. A treaty for the annexation of Hawaii to the United States will be sent to the senate soon after the return of the president, unless present plans are altered. The treaty has been written and all its details were fully agreed upon before the president and Secretary Sherman left for the south. There is no doubt, it is said, of the president's acquiescence in the terms of the treaty for the reason that he was made fully aware of them before he left.

The treaty is on the general lines of the treaty negotiated during the administration of President Harrison and withdrawn by President Cleveland. It provides for annexation without the exaction of conditions on the part of the Hawaiians as to the form of government to be vouchsafed to Hawaii, leaving that question to be entirely disposed of by the government of the United States.

The United States will agree, however, to assume the debt of the present Hawaiian government but will come into possession of all the Hawaiian crown lands and other possessions.

Several senators have received definite information concerning the existence of the treaty and are well acquainted with its terms. It is known that the approval of the committee on foreign relations is assured, as eight members of the committee have approved its terms. This will enable the committee to speedily report the treaty to the senate so that it may be taken up immediately after the tariff bill is disposed of.

The senate has been canvassed to a certain extent by senators favoring annexation, and while there are some senators who are non-committal, the supporters of the proposition say they believe that they can count upon the two-thirds vote necessary to insure ratification.

The especial friends of the president about the senate say that the treaty has been made in accordance with his views and that it would have been sent in some time ago but for his exactions as to details.

It is known that the treaty, though not yet signed, is drawn up ready for signature, and as the president is fully aware of its scope there is no reason to doubt that he will authorize its signature. In this case it is expected that the document will be sent to the senate for its action very soon, even within a week, it is said, in some well-informed quarters. If this be the case, it may be taken for granted that the president has taken steps to assure himself of a favorable reception for the treaty in the senate and to guard against such a mishap as befell the arbitration treaty last session.

The present condition in Hawaii, it is said, has had much to do with favorable consideration of the treaty of annexation. The present government of Hawaii and the people who support it are very much concerned about the Japanese situation. Private information received by Hawaiians in this city is to the effect that the Japanese at any time may take some action looking to acquisition of the island. The advice officially received are of much the same tenor.

The sentiment in the senate seems to be that Japan in no way should control the islands or get a foothold there. This argument has been used to prevent even notice of abrogation of the present treaty in the tariff bill. It is said that such notice might be followed by Japanese occupation and the islands could not be regained by the United States without a struggle. In this connection it is learned that the conversations among the most prominent Japanese residents of Hawaii, which have been reported to the representative of the islands in Washington, have been of a threatening character and the American residents have more concern than has been shown in the published accounts.

## SUGAR BRIBING CHARGE.

Senators Tillman and Hoar Had a Sensational Dispute Over It—Allison Defended the Sugar Schedule—Pettigrew Spoke on His Trust Amendment.

WASHINGTON, June 15.—The senate debate on the sugar schedule of the tariff bill proceeded with only one diverting incident to relieve the monotony into which the discussion has lapsed. This was the sharp exchange between Mr. Hoar (Mass.) and Mr. Tillman (S. C.), representing the two extremes of senatorial procedure. Mr. Tillman referred to published charges of irregularity in connection with the sugar schedule and asserted that the senate would stand convicted before the American people if it failed to investigate the charges. Mr. Hoar calmly and impressively impelled this statement, his tone and language being calculated as a rebuke. He declared that the vague charges of irregularity were not only preposterous but infamous. Mr. Allison, in charge of the bill, made another speech in defense of the

schedule, presenting tables which he declared proved that the sugar refiners received less protection under the existing law. Mr. Pettigrew (S. D.) spoke at length in favor of his amendment to place on the free list articles controlled by trusts, severely arraigning the various large trusts. Mr. Allen (Neb.) urged legal procedure against the trusts. Only one roll call occurred during the day, on Mr. Lindsay's amendment to place all sugars on the same basis. This was rejected—26 to 29. Mr. McNery (Dem., La.) voted with the Republicans in the negative, and Senators Pettigrew and Mantle with the Democrats in the affirmative.

## NATIONAL COUNCIL JR. O. U. A. M.

Meeting of the Supreme Commandery. Flag Anniversary and Lawn Fete.

PITTSBURG, June 15.—The national council of the Jr. O. U. A. M. is in session here.

The only event of importance of the opening day was the meeting of the supreme commandery of the uniformed rank, which occurred at 320 Fourth avenue. Supreme Commander W. H. Stale called the meeting to order and there were about 40 delegates present. The reports of the supreme officers were submitted, showing that this auxiliary to Jr. Order had made a rapid increase in membership during the past year. The business session of the supreme commandery will be continued at such times during the week as will not interfere with the sessions of the national council. This is made necessary because of the fact that most of the delegates are members of both bodies.

The only other work done during the day was the reception of the delegates, who were assigned to their various headquarters. There is no formal program, and the delegates, escorted by the members of the local reception and entertainment committees, visited various points of interest.

Last night the 120th anniversary of the American flag was celebrated in common council chamber, city hall, under the auspices of Liberty council, No. 452. The council had issued a special invitation to members of the national council who may be in the city then, and short addresses were made by the following: John S. Lambie, Esq., of Pittsburg, Rev. W. C. Weaver of Rochester, Pa., William T. Kerr of Pittsburg, Rev. J. Morgan Reed of New Jersey, Rev. John R. Bobolits of Maryland, F. E. Parker of New York, A. L. Chase of Massachusetts, E. T. Keeton of Virginia, C. A. Reynolds, lieutenant governor of North Carolina.

The Daughters of the American Revolution held a lawn fete last night at the home of Mrs. James R. Mellon, on North Negley avenue, invitations to which were issued several days ago. The beautiful grounds were put in order for the fete and the house was decorated with flags and bunting.

## WRECK CAUSED BY HEAT.

A Train Thrown by Spreading Rails and Engineer Killed.

RICHMOND, Ind., June 15.—Train No. 2 southbound express on the Grand Rapids and Indiana railroad has been derailed at Stone station, near Ridgeville, 30 miles north of here. The rails are said to have spread, ditching the engine, tender, mail and baggage cars. The smoker was partially derailed. The engine was totally demolished, instantly killing Engineer David Kramer of Fort Wayne, aged 50 years.

He did not leave his seat and was found under the engine. Fireman Grabel of Fort Wayne was seriously injured. He fell under the tender. Baggage-master Martin Minch of Fort Wayne was also injured. S. W. Mundy, the express messenger of Grand Rapids, was slightly injured. The smoker and the other coaches were not damaged. No passengers were hurt. Heat is supposed to have caused the spreading of the rails.

## HAS MONEY TO BURN.

A Millionaire Tore in Two a \$500 Bill in Court.

MOUNT VERNON, Ill., June 15.—The young millionaire, James E. Berry, has been arraigned before Judge Wells on a charge of wife abandonment. The case was set for trial tomorrow and Berry was required to give \$300 bond for his appearance.

Great excitement ensued when Berry objected to furnishing bond and began displaying all kinds of bills and saying that he would go on the bond himself, and this not being permitted, he made things lively by tearing in two a \$500 bill. Several friends signed the bond.

## Last Session of Postal Congress.

WASHINGTON, June 15.—The delegates to the universal postal congress devoted yesterday mostly to sight-seeing. The last work of the congress will be done today, when a pleasant session will be held to sign the general treaty which is now in proper form for signatures. It will take effect on Jan. 1, 1899.

## The Cruiser Brooklyn Arrives.

SOUTHAMPTON, June 15.—The United States armored cruiser Brooklyn, with Rear Admiral J. N. Miller on board, which is to represent the United States navy at the naval review off Spithead on June 26, has arrived here.

## Raised a Flag on a Cruiser.

DETROIT, June 15.—A feature of flag day in Detroit was the raising of the big flag and Union Jack presented to the city of Detroit by the crew of the United States cruiser Detroit.

## Death of a Hermit.

BLOOMINGTON, Ill., June 15.—James Piper, a quaint character of this city, has been found dead. He was worth \$100,000, but lived like a hermit.

The waste land of the United Kingdom, including mountains, heath and common, is estimated at 40 per cent.

## VICTIMS OF LIGHTNING.

Three Young Ladies Struck Dead Returning From Church.

BELLAIRE, O., June 15.—Three young ladies were killed by lightning while returning from church at Jacobsburg, 11 miles west of here on the Bellaire, Zanesville & Cincinnati railway. The victims are Minnie McGuire, daughter of Rev. Thomas McGuire; Althea Taylor, daughter of William Taylor, and Emma White, daughter of Simon White, all aged about 19 years. Sarah Bohring was badly stunned and may die. It is believed that the steel corsets worn by the three that were killed were the chief cause of their death, as Miss Bohring, who only was stunned, wore none.

The storm at Sarahville, further west, was a very heavy one, killing sheep, blowing down buildings, unroofing barns and dwelling houses and destroying all kinds of growing crops. At Canton lightning struck several buildings, shocking or terrifying the inmates. No serious damage is reported.

## CHASED BY THE MARBLEHEAD.

The Dauntless Starts on Another Trip to Cuba.

KEY WEST, June 15.—The Dauntless has left on another expedition. After taking on 33 Cubans she attempted to go through the northwest passage and ran ashore. Assistance was sent for and the tugs Clyde and Childs pulled her off.

Later the Dauntless changed her course in returning to the harbor and passing the Marblehead put to sea. The Marblehead started in pursuit. The schooner Adams took 40 tons of merchandise from the Biscayne and went to sea to meet the Dauntless.

## A Suicide Identified.

NEW YORK, June 15.—The woman who committed suicide in the vestibule of Calvary Episcopal church Saturday afternoon, has been positively identified as Mrs. Josephine Doriat of Bordeaux, France. She had been a lady's maid.

## Statue to Mrs. Siddons.

LONDON, June 15.—Sir Henry Irving has unveiled the memorial statue to Mrs. Mrs. Siddons, the famous English actress.

## Class Day at Princeton.

PRINCETON, N. J., June 15.—The class day exercises of Princeton's one hundred and fiftieth annual commencement were attended by nearly 4,000 people.

## SPOONS.

The Date of Their Origin Unknown, They Are So Very Ancient.

If you desire to know about the scarcity of really reliable data on the history of spoons, take down your handbooks and encyclopedias and see if it doesn't take you a long while to learn anything concerning their origin, "nativity," etc. In fact, the antiquarians do not pretend to give us anything of value in that line. It is admitted that they are "very ancient," but just exactly how old they are and by whom and where they were first used are points upon which we are left completely in the dark. Creighton says, "Spoons must have been a very ancient invention, for a Saxon spoon of perforated silver gilt, ornamented with gems, was found in a grave at Sarre, Thanet."

When forks were unknown, spoons played a very important part at the table. Spoons of the thirteenth century, and even later, had handles terminating in a knob, knot, acorn or other odd and cumbersome devices. About the period of the restoration, of which so much is said in English history, a great change was made in the forms of spoons. In some of the unique patterns the "spoon" part was divided into two, three and even four parts, and the handle always split or twisted and turned up instead of down and back. Spoons of that period were all blunt instead of being pointed as in the forms generally seen at present. They continued short and blunt down to the time of George I, when they were first made pointed and had the handles turned down instead of up.

About the year 1500 what were known as "apostle spoons" were introduced. They were so called because they had the figures of the 12 apostles carved upon their handles. They were generally given by sponsors to children at their time of baptism. The wealthy presented the entire 12, those who could not afford to indulge in such extravagance giving one or more, according as they felt able.

The most curious and remarkable spoon in the world perhaps is a "coronation spoon," preserved among the other royal relics in the tower of London. The bowl is of gold and the handle of silver. The handle is split down the middle and set with all kinds of precious stones. The relic is valued at about £20,000, or upward of \$100,000.—St. Louis Republic.

## China.

The Matchoorian has always been aware that there were large deposits of coal "in his midst," but he used to imagine that they were under the control of evil spirits, and he therefore would not touch them himself nor allow any one else to. A good deal of that old nonsense has been brayed out of him by recent events—the war and the practical enterprise of the Russians in his territory—and the fields are now being opened. They are abundant and are found all over the country and will have the most important influence in its development. The climate, soil and geographical situation of Manchuria are favorable to the maintenance of a large, enlightened and progressive population, the root of which, in many races interblended through many ages, is already there. With a Russian railroad running through the country and Port Arthur as the outlet and inlet of its commerce, a new chapter of its history will be opened, and the humdrum career which it has pursued since the days of Kublai Khan, and as much further back as anybody wishes to go, may merge into a more active and enterprising one, giving her a new status in the world and a new relation to its affairs.—New York Tribune.

## Where She Couldn't Go.

The spinster on the platform grew more vehement. She drank two glasses of water from the big white pitcher and pounded the table until the display of glass and crockery were leaped again.

"I thank heaven," she cried, "that I am free from all matrimonial chains! What use have I for a husband? I want neither a slave nor a tyrant. I am free—free as air. I can go and come as I please. No door is shut to me; no assembly bars me out. Is there a solitary gathering to which I may not have free and unrestrained access?"

"Yes," cried a shrill voice in the rear of the hall.

"And what is it?" sternly demanded the spinster.

"The convention of mothers!" shrieked the voice.

Then the orator turned pale and went and sat down.—Washington Star.

## Cupid, the Beggar.

How Love goes a begging for a little kindly treatment! How many women turn their backs on the little fellow! They give freely of their time and attention to fashion or social pleasures, but seem to regard happy wifehood and motherhood as a mere secondary consideration.

They take no end of trouble over

the fit of a gown or the success of a dinner party, but think they have no time to bestow upon the health and physical soundness which are absolutely necessary to happy wifehood and motherhood.

Any weakness or disease of the delicate special organs of her sex totally unfit a woman to be a wife or mother. It is a woman's primary duty to be strong and healthy in a womanly way. Careful living and judicious treatment will certainly and completely eradicate these delicate complaints.

A complete and practical treatise on this subject with careful professional advice and suggestions for self-treatment are contained in "The People's Common Sense Medical Adviser," by R. V. Pierce, M. D., chief consulting physician of the Invalids' Hotel and Surgical Institute, Buffalo, N. Y. This 1000-page illustrated book will be sent paper-bound absolutely free for cost of mailing only; 21 one-cent stamps, or cloth-bound for 31 stamps. Address Dr. Pierce, as above.

Dr. Pierce has given a life-time to the study of women's diseases, and has had as wide a practical experience in this particular field as any living physician. His "Favorite Prescription" is a perfect and scientific remedy for diseases of the feminine organs.

It is the only medicine devised for this particular purpose by an educated and skilled physician. It is a positive and permanent cure as attested by more than ninety thousand grateful women.

## LOCAL EVIDENCE.

A Report from the D. E. McNicholl Pottery.

If this report were published in East Liverpool, about a resident of Liverpool, England, we would expect our readers to harbor some suspicion about it, at least we are safe in saying that any public utterance made in East Liverpool, Ohio, by a resident of Liverpool, England, would not be half so interesting as a sentence or two from Mr. H. Thompson, of 306 Fourth street, presser at the D. E. McNicholl Pottery and a resident of East Liverpool for the past forty-five years. Mr. Thompson, in 61, joined Co. L of 62d Penn. Infantry at Pittsburg and served his country well for three years, enduring all the hardships and trials of camp life. When such a man as he comes out flat footed and endorses the claims of an article in which he has no interest there must be something more than ordinary merit behind it. It requires no reasoning or argument to prove this. The facts are plain and to the point. He says: "During my campaign experience between the years of 61 and 64 I contracted a weakness of the kidneys which has bothered me more or less ever since, and recently very severely. I had a constant aching pain across the small of my back and was subject to attacks of muscular rheumatism, especially in damp or changeable weather. I have frequently been so bad that I could scarcely get up when down and in fact could hardly get around at all. I have tried many remedies in an endeavor to get rid of my trouble, but found nothing that seemed suited to my case until I got a box of Doan's Kidney Pills at the W. and W. Pharmacy. They filled the bill exactly, giving me almost immediate relief and warding off the last attack. I am continuing their use firmly believing they will radically cure me. I do not hesitate to give Doan's Kidney Pills my earnest endorsement, believing they will be a great source of benefit to those troubled as I was."

The reports of the supreme officers were submitted, showing that this auxiliary to Jr. Order had made a rapid increase in membership during the past year. The business session of the supreme commandery will be continued at such times during the week as will not interfere with the sessions of the national council. This is made necessary because of the fact that most of the delegates are members of both bodies.

The only other work done during the day was the reception of the delegates, who were assigned to their various headquarters. There is no formal program, and the delegates, escorted by the members of the local reception and entertainment committees, visited various points of interest.

Last night the 120th anniversary of the American flag was celebrated in common council chamber, city hall, under the auspices of Liberty council, No. 452. The council had issued a special invitation to members of the national council who may be in the city then, and short addresses were made by the following: John S. Lambie, Esq., of Pittsburg, Rev. W. C. Weaver of Rochester, Pa., William T. Kerr of Pittsburg, Rev. J. Morgan Reed of New Jersey, Rev. John R. Bobolits of Maryland, F. E. Parker of New York, A. L. Chase of Massachusetts, E. T. Keeton of Virginia, C. A. Reynolds, lieutenant governor of North Carolina.

The Daughters of the American Revolution held a lawn fete last night at the home of Mrs. James R. Mellon, on North Negley avenue, invitations to which were issued several days ago. The beautiful grounds were put in order for the fete and the house was decorated with flags and bunting.

## WRECK CAUSED BY HEAT.

A Train Thrown by Spreading Rails and Engineer Killed.

RICHMOND, Ind., June 15.—Train No. 2 southbound express on the Grand Rapids and Indiana railroad has been derailed at Stone station, near Ridgeville, 30 miles north of here. The rails are said to have spread, ditching the engine, tender, mail and baggage cars. The smoker was totally demolished, instantly killing Engineer David Kramer of Fort Wayne, aged 50 years.

He did not leave his seat and was found under the engine. Fireman Grabel of Fort Wayne was seriously injured. He fell under the tender. Baggage-master Martin Minch of Fort Wayne was also injured. S. W. Mundy, the express messenger of Grand Rapids, was slightly injured. The smoker and the other coaches were not damaged. No passengers were hurt. Heat is supposed to have caused the spreading of the rails.

## HAS MONEY TO BURN.

A Millionaire Tore in Two a \$500 Bill in Court.

MOUNT VERNON, Ill., June 15.—The young millionaire, James E. Berry, has been arraigned before Judge Wells on a charge of wife abandonment. The case was set for trial tomorrow and Berry was required to give \$300 bond for his appearance.

Great excitement ensued when Berry objected to furnishing bond and began displaying all kinds of bills and saying that he would go on the bond himself, and this not being permitted, he made things lively by tearing in two a \$500 bill. Several friends signed the bond.

## Last Session of Postal Congress.

WASHINGTON, June 15.—The delegates to the universal postal congress devoted yesterday mostly to sight-seeing. The last work of the congress will be done today, when a pleasant session will be held to sign the general treaty which is now in proper form for ratification. It will take effect on Jan. 1, 1899.

## The Cruiser Brooklyn Arrives.

SOUTHAMPTON, June 15.—The United States armored cruiser Brooklyn, with Rear Admiral J. N. Miller on board, which is to represent the United States navy at the naval review off Spithead on June 26, has arrived here.

## Raised a Flag on a Cruiser.

DETROIT, June 15.—A feature of flag day in Detroit was the raising of the big flag and Union Jack presented to the city of Detroit by the crew of the United States cruiser Detroit.

## Death of a Hermit.

BLOOMINGTON, Ill., June 15.—James Piper, a quaint character of this city, has been found dead. He was worth \$100,000, but lived like a hermit.

The waste land of the United Kingdom, including mountains, heath and common, is estimated at 40 per cent.

## VICTIMS OF LIGHTNING.

Three Young Ladies Struck Dead Returning From Church.

BELLAIRE, O., June 15.—Three young ladies were killed by lightning while returning from church at Jacobsburg, 11 miles west of here on the Bellaire, Zanesville & Cincinnati railway. The victims are Minnie McGuire, daughter of Rev. Thomas McGuire; Althea Taylor, daughter of William Taylor, and Emma White, daughter of Simon White, all aged about 19 years. Sarah Bohring was badly stunned and may die. It is believed that the steel corsets worn by the three that were killed were the chief cause of their death, as Miss Bohring, who only was stunned, wore none.

The storm at Sarahville, further west, was a very heavy one, killing sheep, blowing down buildings, unroofing barns and dwelling houses and destroying all kinds of growing crops. At Canton lightning struck several buildings, shocking or terrifying the inmates. No serious damage is reported.

## CHASED BY THE MARBLEHEAD.

The Dauntless Starts on Another Trip to Cuba.

KEY WEST, June 15.—The Dauntless has left on another expedition. After taking on 33 Cubans she attempted to go through the northwest passage and ran ashore. Assistance was sent for and the tugs Clyde and Childs pulled her off.

Later the Dauntless changed her course in returning to the harbor and passing the Marblehead put to sea. The Marblehead started in pursuit. The schooner Adams took 40 tons of merchandise from the Biscayne and went to sea to meet the Dauntless.

## A Suicide Identified.

NEW YORK, June 15.—The woman who committed suicide in the vestibule of Calvary Episcopal church Saturday afternoon, has been positively identified as Mrs. Josephine Doriat of Bordeaux, France. She had been a lady's maid.

## Statue to Mrs. Siddons.

LONDON, June 15.—Sir Henry Irving has unveiled the memorial statue to Mrs. Sarah Siddons, the famous English actress.

## Class Day at Princeton.

PRINCETON, N. J., June 15.—The class day exercises of Princeton's one hundred and fiftieth annual commencement were attended by nearly 4,000 people.

If the splendor of thine eyes  
Gaze not in the depths of mine, love,  
Where thy image lies?

What are days without thy presence,  
What the nights without thy care,  
What to me are joys of heaven  
If thou art not there?

## SPOONS.

The Date of Their Origin Unknown, They Are So Very Ancient.

If you desire to know about the scarcity of really reliable data on the history of spoons, take down your handbooks and encyclopedias and see if it doesn't take you a long while to learn anything concerning their origin, "nativity," etc. In fact, the antiquarians do not pretend to give us anything of value in that line. It is admitted that they are "very ancient," but just exactly how old they are and by whom and where they were first used are points upon which we are left completely in the dark. Creighton says, "Spoons must have been a very ancient invention, for a Saxon spoon of perforated silver gilt, ornamented with gems, was found in a grave at Sarre, Thanet."

When forks were unknown, spoons played a very important part at the table. Spoons of the thirteenth century, and even later, had handles terminating in a knob, knot, acorn or other odd and cumbersome devices. About the period of the restoration, of which so much is said in English history, a great change was made in the forms of spoons. In some of the unique patterns the "spoon" part was divided into two, three and even four parts, and the handle always split or twisted and turned up instead of down and back. Spoons of that period were all blunt instead of being pointed as in the forms generally seen at present. They continued short and blunt down to the time of George I, when they were first made pointed and had the handles turned down instead of up.

About the year 1500 what were known as "apostle spoons" were introduced. They were so called because they had the figures of the 12 apostles carved upon their handles. They were generally given by sponsors to children at their time of baptism. The wealthy presented the entire 12, those who could not afford to indulge in such extravagance giving one or more, according as they felt able.

The most curious and remarkable spoon in the world perhaps is a "coronation spoon," preserved among the other royal relics in the tower of London. The bowl is of gold and the handle of silver. The handle is split down the middle and set with all kinds of precious stones. The relic is valued at about \$20,000, or upward of \$100,000. —St. Louis Republic.

## China.

The Matchoorian has always been aware that there were large deposits of coal "in his midst," but he used to imagine that they were under the control of evil spirits, and he therefore would not touch them himself nor allow any one else to. A good deal of that old nonsense has been brayed out of him by recent events—the war and the practical enterprise of the Russians in his territory—and the fields are now being opened. They are abundant and are found all over the country and will have the most important influence in its development. The climate, soil and geographical situation of Manchuria are favorable to the maintenance of a large, enlightened and progressive population, the root of which, in many races interblended through many ages, is already there. With a Russian railroad running through the country and Port Arthur as the outlet and inlet of its commerce, a new chapter of its history will be opened, and the humdrum career which it has pursued since the days of Kublai Khan, and as much further back as anybody wishes to go, may merge into a more active and enterprising one, giving her a new status in the world and a new relation to its affairs. —New York Tribune.

## Where She Couldn't Go.

The spinster on the platform grew more vehement. She drank two glasses of water from the big white pitcher and pounded the table until the display of glass and crockery were leaped again.

"I thank heaven," she cried, "that I am free from all matrimonial chains! What use have I for a husband? I want neither a slave nor a tyrant. I am free—free as air. I can go and come as I please. No door is shut to me; no assembly bars me out. Is there a solitary gathering to which I may not have free and unrestrained access?"

"Yes," cried a shrill voice in the rear of the hall.

"And what is it?" sternly demanded the spinster.

"The convention of mothers!" shrieked the voice.

Then the orator turned pale and went and sat down. —Washington Star.

## Cupid, the Beggar.

How Love goes a begging for a little kindly treatment! How many women turn their backs on the little fellow! They give freely of their time and attention to fashion or social pleasures, but seem to regard happy wifehood and motherhood as a mere secondary consideration.

They take no end of trouble over

the fit of a gown or the success of a dinner party, but think they have no time to bestow upon the health and physical soundness which are absolutely necessary to happy wifehood and motherhood.

Any weakness or disease of the delicate special organs of her sex totally unfits a woman to be a wife or mother. It is a woman's primary duty to be strong and healthy in a womanly way. Careful living and judicious treatment will certainly and completely eradicate these delicate complaints.

A complete and practical treatise on this subject with careful professional advice and suggestions for self-treatment are contained in "The People's Common Sense Medical Adviser," by R. V. Pierce, M. D., chief consulting physician of the Invalids' Hotel and Surgical Institute, Buffalo, N. Y. This 1000-page illustrated book will be sent paper-bound absolutely free for cost of mailing only: 21 one-cent stamps, or cloth-bound for 31 stamps. Address Dr. Pierce, as above.

Dr. Pierce has given a life-time to the study of women's diseases, and has had as wide a practical experience in this particular field as any living physician. His "Favorite Prescription" is a perfect and scientific remedy for diseases of the feminine organs.

It is the only medicine devised for this particular purpose by an educated and skilled physician. It is a positive and permanent cure as attested by more than ninety thousand grateful women.

## LOCAL EVIDENCE.

A Report from the D. E. McNicholl Pottery.

If this report were published in East Liverpool, about a resident of Liverpool, England, we would expect our readers to harbor some suspicion about it, at least we are safe in saying that any public utterance made in East Liverpool, Ohio, by a resident of Liverpool, England, would not be half so interesting as a sentence or two from Mr. H. Thompson, of 306 Fourth street, presser at the D. E. McNicholl Pottery and a resident of East Liverpool for the past forty-five years. Mr. Thompson, in 61, joined Co. L of 62nd Penn. Infantry at Pittsburg and served his country well for three years, enduring all the hardships and trials of camp life. When such a man as he comes out flat footed and endorses the claims of an article in which he has no interest there must be something more than ordinary merit behind it. It requires no reasoning or argument to prove this. The facts are plain and to the point. He says: "During my campaign experience between the years of 61 and 64 I contracted a weakness of the kidneys which has bothered me more or less ever since, and recently very severely. I had a constant aching pain across the small of my back and was subject to attacks of muscular rheumatism, especially in damp or changeable weather. I have frequently been so bad that I could scarcely get up when down and in fact could hardly get around at all. I have tried many remedies in an endeavor to get rid of my trouble, but found nothing that seemed suited to my case until I got a box of Doan's Kidney Pills at the W. and W. Pharmacy. They filled the bill exactly, giving me almost immediate relief and warded off the last attack. I am continuing their use firmly believing they will radically cure me. I do not hesitate to give Doan's Kidney Pills my earnest endorsement, believing they will be a great source of benefit to those troubled as I was."

Doan's Kidney Pills are for sale by all dealers. Price 50 cents or mailed by Foster-Milburn Co., Buffalo, N. Y., sole agents for the U. S.

Cleveland and Pittsburg to Build a New Switch.

A SURVEY HAS BEEN MADE

While It Is Claimed the Right of Way Has Been Procured—It Will Not Prevent the Cleveland, Lorain & Wheeling From Extending Their Lines.

Since the proposed extension of the Cleveland, Lorain and Wheeling has been rumored, it is said the Cleveland and Pittsburg will take steps to build the switch along the run. A survey of the line has been made, and it is claimed they have secured a right of way. This will not prevent the Cleveland, Lorain & Wheeling from entering the city, as there is plenty of land between the survey made for the Canton & Southern and Cleveland & Pittsburg. Nothing definite was ever done by the former company and their route would be open to the new competing line. Should the new switch be built it will greatly increase the facilities of the manufactories.

Silver lodge, Knights of Pythias, held an interesting session, last night, a large number of knights being present. Superintendent A. C. Fogo was initiated into the mysteries of the Esquire rank.

Mr. Harry Flock and Miss Ollie Knepper, two well known and popular young people, were united in marriage this morning at 7 o'clock, by Reverend Stevenson, and left on the 8 o'clock train for Ft. Wayne.

Squire Riley and his prospective bride, Miss Jennie Hamilton, left this afternoon for Pittsburg, where they will be joined in the holy bonds, after which an extended tour of eastern cities will follow. The host of friends of the squire join with the News Review in wishing the justice and his winsome bride bon voyage and happy days o'er life's matrimonial sea.

Superintendent McDonald leaves Monday to attend the state Republican convention at Toledo. While in that city he will also attend the State Teachers' association. The following week, going to Detroit, he will attend the session of the National Teachers' association. As an educator, Mr. McDonald is up with the times.

Morgan Hamilton met with a painful accident yesterday afternoon at the Kenilworth brick works. He was running the brick machine, which was going most too rapidly, and the wire cutter, used for cutting off brick, caught a finger, cutting it off clean and clear to the first joint, and so neatly that the surgeon who attended him had little trouble in dressing the injured member.

### UNCLE SAM'S AUCTION SALE.

Annual Disposal of the Accumulations of the Dead Letter Office.

One of the queerest "institutions" of the national capital is the annual clearance sale of the dead letter office, in which a vast accumulation of articles gone astray in the mails is sold to the highest bidders. The auction house where it is held is continually crowded with excited men, women and children, and beside it the bargain counters during the holidays are as havens of rest, for when Uncle Sam goes into the junk-shop business great things are expected. As in the church fair raffle, you pay a small amount of money and trust to luck to get back more than its value. The articles, previously listed in a wholesale sort of way, are tied up in bundles of from three to a half dozen and "auctioned" for what they will bring, the average bids ranging between 10 cents and a dollar.

Nobody is permitted to examine the goods before purchasing, and no money is refunded to the dissatisfied. Everybody hopes to pull a genuine plum from the pie in the shape of a diamond ring, a silk dress pattern or a silver teapot, and although comparative blanks are the rule, there is always the possibility of a prize. For example, the auctioneer holds up one of these odd shaped bundles, listed "pictures, underwear, mules, cigars." Going—going—gone—for 90 cents to a dapper young gentleman who was caught by the word "cigar." He opens it on the spot—an unwise thing to do if one objects to good natured ridicule—and this is what he finds: Six cigars, broken into bits with so strong an odor that one wonders how a sledge hammer could have done it; underwear—a female 10 cent "jersey;" pictures—a collection of newspaper cuts designed for amusement of some small child. The lot would be dear at a quarter and is of no use to the buyer.

In the dead letter office proper—that charnel house which swallows nearly half a million missives every month—it is positively harrowing. More than 40 bushels of photographs have accumulated there, awaiting the annual cremation. There are tresses of hair enough to stuff a dozen mattresses, grandmothers' silver locks and babies' golden curls, many no doubt cut from dead brows, and small sums of money which poor workmen send home to feed their wives and little ones, and servant girls save from their scanty wages for needy parents—gone to Uncle Sam's rich purse, not because the United States wants it, but because the senders' writing or orthography was beyond mortal ken. It is hard to realize that in this land of schools, at the close of the nineteenth

century, there are so many people so ignorant or so careless as to send several millions of letters a year without stamps or addresses or with addresses which no man can make out. People seem to be so intent on what goes into the letters that they forget all about the superscription. It is estimated that \$4,500,000 in drafts and \$80,000,000 in cash is received every year through dead letters.—Indianapolis Journal.

### COST OF A TRAIN.

The Expense and Profits of Travel on English Railway Lines.

How many people who travel in trains ever think of the cost of running them? It will probably surprise most people who have traveled from London to Edinburgh to know that every mile of the journey costs the railway company over half a crown. The cost of the whole journey from the English to the Scotch capital is £50.

The average cost of running a train in England is 2s. 7d. per mile, so that, the fare being reckoned at 1d. per mile, a train with less than 31 passengers for each mile is run at a loss. There are few trains, however, that do not carry more than this number of passengers, and many of them carry the number doubled many times over. It is necessary frequently to run trains that do not pay—usually in thinly inhabited country districts—but for every train run at a loss probably 100 are run at an enormous profit.

Take, for instance, the journey from London to Edinburgh, which costs the railway company £50. The average number of "through" passengers in these trains is probably 60, in which case the total fares would be nearly £100—a clear gain of nearly £50. When it is remembered that these trains run several times a day, and every day in the year, it will be understood what an enormous revenue a single line yields in the course of 12 months. Supposing the average number of passengers to be 60, the midnight train from London to Edinburgh yields over £20,000 for dividend in a year!

The longest railway journey in the United Kingdom would probably be from Penzance, in Cornwall, to Thurso, in the north of Scotland, a distance of over 1,000 miles. A train running between these two places would exhaust an ordinary clerk's salary for a whole year, the cost being no less than £138.—London Tit-Bits.

In Bavaria the title of prince only costs \$5,000 and that of lord \$2,500, while a simple "von" may be purchased for \$375.

Squire Riley left today for a ten days'  
journey.

The Broadway park is now very beau-  
tiful, and many people think the cornet  
band should give a concert in the park  
at least twice a week.

Silver lodge, Knights of Pythias, held  
an interesting session, last night, a large  
number of knights being present. Super-  
intendent A. C. Fogo was initiated into  
the mysteries of the Esquire rank.

Mr. Harry Flock and Miss Ollie  
Knepper, two well known and popular  
young people, were united in marriage  
this morning at 7 o'clock, by Reverend  
Stevenson, and left on the 8 o'clock train  
for Ft. Wayne.

Squire Riley and his prospective bride,  
Miss Jennie Hamilton, left this after-  
noon for Pittsburg, where they will be  
joined in the holy bonds, after which  
an extended tour of eastern cities will  
follow. The host of friends of the  
squire join with the NEWS REVIEW in  
wishing the justice and his winsome  
bride bon voyage and happy days o'er  
life's matrimonial sea.

Superintendent McDonald leaves  
Monday to attend the state Republican  
convention at Toledo. While in that city  
he will also attend the State Teachers'  
association. The following week, going  
to Detroit, he will attend the session of  
the National Teachers' association. As  
an educator, Mr. McDonald is up with  
the times.

Morgan Hamilton met with a painful  
accident yesterday afternoon at the  
Kenilworth brick works. He was run-  
ning the brick machine, which was go-  
ing most too rapidly, and the wire  
cutter, used for cutting off brick, caught  
a finger, cutting it off clean and clear to  
the first joint, and so neatly that the  
surgeon who attended him had little  
trouble in dressing the injured member.

YOUNG TOUGH

Take Warning and Mind Your Own Busi-  
ness.

The young blackguard who assaulted  
my son yesterday, striking my boy and  
calling him vile names, will rest in the  
lockup, just as sure as fate, and after-  
ward be sent to the reform school,  
where he will be kept busy at honest  
work, just as surely as he repeats his  
offense. Such young scoundrels as him-  
self look best through prison bars.

PARENT.

Rapid Progress.

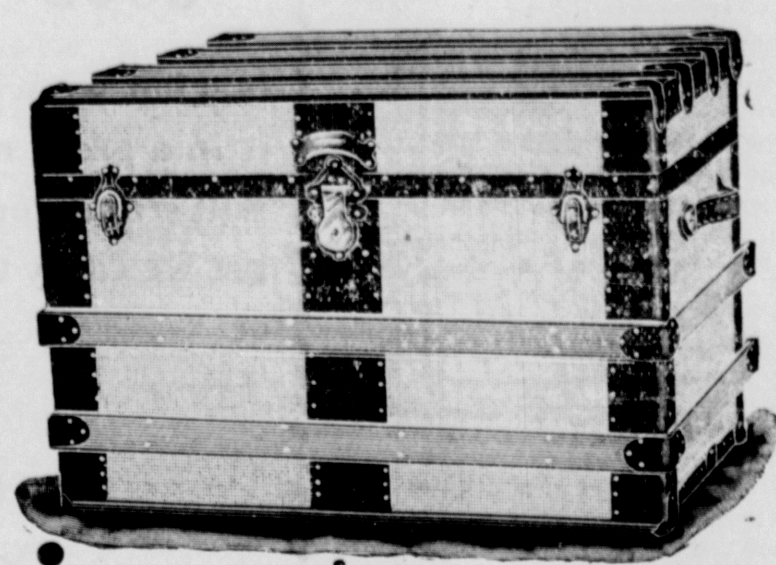

Work on the street railway, near West  
End, is being pushed forward rapidly.  
It is expected that within a few weeks  
the whole line will be gone over and  
greatly improved.

Did Little Business.

The spiritual religious work commit-  
tee of the Epworth League met last  
evening and outlined work for the offi-  
cers for the ensuing year.

## ARE YOU ABOUT TO TRAVEL?

If so, more than likely you will need a telescope, a suit  
case or a trunk, or perhaps all three. We want to sell  
them to you, providing we can save you money on your  
purchase, a thing we are prepared to prove to you beyond  
the shadow of a doubt.

### THIS IS TRUNK WEEK

at the Boston Store, and we are prepared to quote some  
interesting prices. For a strong, well reinforced crystal  
trunk, with iron bottom, we only ask you as follows:

Size, 26 inch, 28 inch, 30 inch, 32 inch, 34 inch 36 inch.  
Price, \$1.98, \$2.49, \$2.98, \$3.49 \$3.75 \$3.98.

For a good canvas trunk, flat top, iron bottom, and strongly reinforced,

Size, 26 inch, 28 inch, 30 inch, 32 inch, 34 inch, 36 inch,  
Price, \$2.49, \$2.98, \$3.49, \$3.98, \$4.50, \$4.98.

For extra fine quality of canvas trunks, \$5, \$6.50, \$7.50, \$10, \$12.50, \$15 and \$18.

For a good line of canvas telescopes, leather bound, 35c, 50c, 75c, 98c, \$1.25, \$1.50, \$1.75, \$1.98,  
according to size.

For suit cases, good quality, \$2, \$2.50 and \$3.

We want your trunk trade and are prepared to guarantee better qualities and lower prices  
than to be had elsewhere. Test us and prove the truth of this assertion to your own satisfaction.

### UNCLE SAM'S AUCTION SALE.

Annual Disposal of the Accumulations of  
the Dead Letter Office.

One of the queerest "institutions"  
of the national capital is the annual  
clearance sale of the dead letter office,  
in which a vast accumulation of articles  
gone astray in the mails is sold to the  
highest bidders. The auction house  
where it is held is continually crowded  
with excited men, women and children,  
and beside it the bargain counters dur-  
ing the holidays are as havens of rest,  
for when Uncle Sam goes into the junk-  
shop business great things are expect-  
ed. As in the church fair raffle, you  
pay a small amount of money and trust  
to luck to get back more than its value.  
The articles, previously listed in a  
wholesale sort of way, are tied up in  
bundles of from three to a half dozen  
and "auctioned" for what they will  
bring, the average bids ranging between  
10 cents and a dollar.

Nobody is permitted to examine the  
goods before purchasing, and no money  
is refunded to the dissatisfied. Every-  
body hopes to pull a genuine plum from  
the pie in the shape of a diamond ring,  
a silk dress pattern or a silver teapot,  
and although comparative blanks are  
the rule, there is always the possibility  
of a prize. For example, the auctioneer  
holds up one of these odd shaped bun-  
dles, listed "pictures, underwear, mu-  
sic, cigars." Going—going—gone—for  
90 cents to a dapper young gentleman  
who was caught by the word "cigar." He  
opens it on the spot—an unwise  
thing to do if one objects to good natured  
ridicule—and this is what he finds: Six  
cigars, broken into bits with so strong  
an odor that one wonders how a sledge  
hammer could have done it; underwear—  
a female 10 cent "jersey;" pictures—  
a collection of newspaper cuts designed  
for amusement of some small child.  
The lot would be dear at a quarter and  
is of no use to the buyer.

In the dead letter office proper—that  
chamber house which swallows nearly  
half a million missives every month—it  
is positively harrowing. More than 40  
bushels of photographs have accumu-  
lated there, awaiting the annual crema-  
tion. There are tresses of hair enough  
to stuff a dozen mattresses, grandmoth-  
ers' silver locks and babies' golden curls,  
many no doubt cut from dead brows,  
and small sums of money which poor  
workmen send home to feed their wives  
and little ones, and servant girls save  
from their scanty wages for needy par-  
ents—gone to Uncle Sam's rich purse,  
not because the United States wants it,  
but because the senders' writing or or-  
thography was beyond mortal ken. It is  
hard to realize that in this land of  
schools, at the close of the nineteenth

century, there are so many people so  
ignorant or so careless as to send several  
millions of letters a year without stamps  
or addresses or with addresses which no  
man can make out. People seem to be  
so intent on what goes into the letters  
that they forget all about the superscrip-  
tion. It is estimated that \$4,500,000 in  
drafts and \$80,000,000 in cash is receiv-  
ed every year through dead letters.—In-  
dianapolis Journal.

### COST OF A TRAIN.

The Expense and Profits of Travel on  
English Railway Lines.

How many people who travel in trains  
ever think of the cost of running them?  
It will probably surprise most people  
who have traveled from London to Ed-  
inburgh to know that every mile of the  
journey costs the railway company over  
half a crown. The cost of the whole  
journey from the English to the Scotch  
capital is £50.

The average cost of running a train  
in England is 2s. 7d. per mile, so that,  
the fare being reckoned at 1d. per mile,  
a train with less than 31 passengers for  
each mile is run at a loss. There are  
few trains, however, that do not carry  
more than this number of passengers,  
and many of them carry the number  
doubled many times over. It is neces-  
sary frequently to run trains that do not  
pay—usually in thinly inhabited coun-  
try districts—but for every train run at  
a loss probably 100 are run at an enor-  
mous profit.

Take, for instance, the journey from  
London to Edinburgh, which costs the  
railway company £50. The average  
number of "through" passengers in  
these trains is probably 60, in which  
case the total fares would be nearly  
£100—a clear gain of nearly £50. When  
it is remembered that these trains run  
several times a day, and every day in  
the year, it will be understood what an  
enormous revenue a single line yields in  
the course of 12 months. Supposing the  
average number of passengers to be 60,  
the midnight train from London to Ed-  
inburgh yields over £20,000 for divi-  
dend in a year!

The longest railway journey in the  
United Kingdom would probably be  
from Penzance, in Cornwall, to Thurso,  
in the north of Scotland, a distance of  
over 1,000 miles. A train running be-  
tween these two places would exhaust  
an ordinary clerk's salary for a whole  
year, the cost being no less than £138.  
—London Tit-Bits.

In Bavaria the title of prince only  
costs \$5,000 and that of lord \$2,500,  
while a simple "von" may be pur-  
chased for \$375.

EAST LIVERPOOL, O., TUESDAY, JUNE 15.

MR. BRYAN was in New York the other day, but had nothing new to offer. To the newspapers he sang his doleful song of calamity, that same, same song in which there is neither brilliancy nor originality.

THE Republicans of Stark county did not forget to recognize Hon. R. W. Tayler when they passed a bunch of resolutions at the convention, and they did what was right. Our congressman has proved a faithful, efficient official.

JOHN R. McLEAN has no platform but the platform of the Chicago convention. He has no claim whatever on the Democrats of Ohio. The only excuse he can offer for his candidacy is the fact that he is rich, and all rich men want to join the senate club.

PRESIDENT McKINLEY has been showing the people of the south that a Republican and a protectionist is a gentleman and a Christian. His trip through Tennessee developed beyond any reasonable doubt that the people recognize him as such.

THERE is a hum about this country which bespeaks better times. The mere fact that the senate will act prompt and talk little is giving that confidence which cannot but end in a period of prosperity such as the country has not known for years. Then that hum will increase to a roar.

THE American Federation of Labor has taken a step which will doubtless result in something more than a cyclone of talk on the immigration question. Each union is asked to answer a number of questions dealing with this important subject. It is a wise move. If the great force of organized labor takes firm hold of the question, congress will likely change its view.

## FOR THE SCHOOLS.

While considering the employment of a superintendent, the members of the board of education are expected to do that which will increase the importance and efficiency of the public schools. That is the one great thought upon which any action which they may take must be based. As public officers they must in a measure lose their identity as individuals, and no matter what may be their sentiment toward any particular candidate or candidates, they must only select the man who can fill the place and fill it well. The schools make up an institution so important that the board cannot afford to make a mistake. They must place the educational system under the dictation of a superintendent who can meet the requirements of the position. That is all the public expects. If that is done and done conscientiously, this board will have done its duty.

## ENFORCE THEM.

The complaint is heard, broadcast, that our laws need revising; that they are weak and almost worthless, and in many cases simply calculated to cover crime and dupe the law-abiding element; that they are laden with clap-trap and technicalities, to be used by a keen witted and unscrupulous attorney, for the purpose of setting free his guilty client. There may be and doubtless is much truth in the above. But there are laws controlling this municipality which are good laws, and which would result in much good were they but enforced. And they MUST BE ENFORCED. There is a storm cloud growing in the hearts of good and conservative citizens of this city against unworthy and perjured officials, and when the lightning flashes, there will be scorching done which will never be forgotten by those struck by the fluid of righteous indignation and honest wrath.

## ANDISCOREABEATI.

The Above Is a Second Cousin of Heinrich  
Hohenzollerische.

DEAR MUFTI:—We, the newspaper fiends, in solemn conclave assembled, have courtmartialed one of our number, a late acquisition, supposed to be a journalist, on the charge of having too little salt in his make-up. There were three counts against the fellow, as follows: First, an extravagant, apparently uncontrollable desire to indulge in what is known as "roasting." Secondly, an absolute impossibility to tell the truth, even when the truth would best secure the end desired. Thirdly, and lastly, an absolutely insane habit of signing his name to every item he handed in at the office, insisting that his initials should be thrown out boldly and the remainder of his name filled out in small caps, and this hideous device be attached to each and all and every one of his delectable effusions. After careful, conscientious, elaborate and praiseworthy consideration of the above charges, the barkliarette, your secret conclave, found the suppositious journalist guilty on all three counts. The last count was considered especially heinous, calculated, as it is, to make the journalistic profession a laughing stock for the public, and your conclave has declared the sentence of "hari-kari cussewago" against the would-be journalist, forever barring him from the inner circle of the "Mufti Mufto Marafatto," and consigning him to the horrors of "decapitato," figuratively speaking. ## HUNTING GROUNDHOGS.

James Twaddle Was Accidentally Shot by  
a Companion.

While hunting for groundhogs on the McPherson farm, near Cannon's Mill, yesterday afternoon, James Twaddle, of the West End, was accidentally shot in the head and shoulders by J. S. Baxter, his companion. When the men reached the farm they noticed an animal going in a hole. Twaddle ran near the place and lay in the grass a short time. Shortly he raised his head to see if it had come out when Baxter raised his gun and fired, with the above result. Twaddle uttered a cry, and Baxter ran to where he lay. Seeing what he had done he helped the man to his carriage and brought him to this city, where his wounds were dressed by Doctor Norris.

Upon examination it was found Twaddle received 35 shot. He was taken to his home, where he passed a good night. The accident will not prove serious.

## THE PICNIC.

Many People Are In Attendance at Rock  
Spring.

The picnic being given today at Rock Spring for the benefit of the library is very largely attended, and the crowd at the grounds is estimated anywhere from 1,500 to 3,000 people. The factories shut-down at noon, and the business houses closed at 3 o'clock, leaving the streets to present a very deserted appearance. The band went over the street car line at noon, and many people are in attendance from Wellsville. The day is being observed as a general holiday, and the library fund will undoubtedly be largely increased by the receipts. At the meeting last night all arrangements were completed, and the large crowd is being taken care of in first-class style.

## RE-ELECTED.

Miss Andrews Will Again Teach at

ing school and is still lingering. He will be given a hearing tomorrow. The others in the quartette are Bill Quinn, John Bevins and Pat Mooney.

## SUNDAY DRUNKS.

They Have a Quarrel In Riverview Cem-  
etery.

The fact became known today that there were several drunks in Riverview cemetery Sunday last. They began to quarrel among themselves, and it was with difficulty that several acquaintances separated them. Their friends brought them to this place, and they headed for an uptown saloon, being attracted there by the music on the inside, and still there is law.

## MOCK MARRIAGE.

Two Prominent Milliners Figure Con-  
spicuously.

A few nights ago two prominent milliners thought they would have some fun by having a mock marriage performed. One of them secured a man's outfit, and proceeded to the home of another lady, where the wouldbe (?) bride was waiting. A well-known young man was accosted while passing the house, and asked in. The ceremony was pronounced, and the pleasure of the evening ended in a lavish spread.

## NON-SUPPORT.

Two Cases Disposed of by Squire  
Manley.

Joseph Smith was before Squire Manley this morning to answer a charge of non-support, and after paying the costs of the case will be put to work cleaning the Broadway wharf to settle his fine.

David Smith, of East End, was in the same court to answer to a similar charge. His wife refused to testify against him, and the case was dismissed after the costs were paid.

## BRING IT BACK.

You Will Save a Sojourn In Lisbon  
Jail.

The thief who yesterday stole a handsome lotus vase from a basket in the Fifth street rink is known, and will save a trip to Lisbon jail by returning the same at once. Take your own method of returning it, but leave it at the Young Womans' home, Market street, without delay. MAYOR.

## SPORTING NOTES.

The Fat and Lean Men Will Play  
Ball.

The fat and lean men will play ball at Rock Spring next Tuesday afternoon. Alf Shaw stands sixty-ninth in batting in the Eastern league, while in fielding he is third. Padden stands fifth in fielding and hitting in the Pittsburg club.

## TANYARD RUN

Will Occupy the Time of Council This  
Evening.

Council will meet this evening in joint session with the sewer commissioners and discuss the advisability of sewerage Tanyard run. All points of the subject will be taken into consideration and it is probable a definite conclusion will be reached.

## Was a Success.

The sunrise praise service held at the First M. E. church last Sunday morning was a success, and will be continued in the future. The Epworth League has charge of it.

## Pushed the Work.

The township trustees have finished their work of cleaning up the Market street and Washington street wharves, and they now present a handsome appearance.

## On the River.

The river is raising some, and the marks are now 4.2 feet. Heavy rain up the Allegheny is the cause. Down—Keystone State and Ben Hur.

The fact became known today that there were several drunks in Riverview cemetery Sunday last. They began to quarrel among themselves, and it was with difficulty that several acquaintances separated them. Their friends brought them to this place, and they headed for an uptown saloon, being attracted there by the music on the inside, and still there is law.

## MOCK MARRIAGE.

Two Prominent Milliners Figure Conspicuously.

A few nights ago two prominent milliners thought they would have some fun by having a mock marriage performed. One of them secured a man's outfit, and proceeded to the home of another lady, where the would-be (?) bride was waiting. A well-known young man was accosted while passing the house, and asked in. The ceremony was pronounced, and the pleasure of the evening ended in a lavish spread.

## NON-SUPPORT.

Two Cases Disposed of by Squire Manley.

Joseph Smith was before Squire Manley this morning to answer a charge of non-support, and after paying the costs of the case will be put to work cleaning the Broadway wharf to settle his fine.

David Smith, of East End, was in the same court to answer to a similar charge. His wife refused to testify against him, and the case was dismissed after the costs were paid.

## BRING IT BACK.

You Will Save a Sojourn In Lisbon Jail.

The thief who yesterday stole a handsome lotus vase from a basket in the Fifth street rink is known, and will save a trip to Lisbon jail by returning the same at once. Take your own method of returning it, but leave it at the Young Womans' home, Market street, without delay. MAYOR.

## SPORTING NOTES.

The Fat and Lean Men Will Play Ball.

The fat and lean men will play ball at Rock Spring next Tuesday afternoon. Alf Shaw stands sixty-ninth in batting in the Eastern league, while in fielding he is third.

Padden stands fifth in fielding and hitting in the Pittsburg club.

## TANYARD RUN.

Will Occupy the Time of Council This Evening.

Council will meet this evening in joint session with the sewer commissioners and discuss the advisability of sewerage Tanyard run. All points of the subject will be taken into consideration and it is probable a definite conclusion will be reached.

## Was a Success.

The sunrise praise service held at the First M. E. church last Sunday morning was a success, and will be continued in the future. The Epworth League has charge of it.

## Pushed the Work.

The township trustees have finished their work of cleaning up the Market street and Washington street wharves, and they now present a handsome appearance.

## On the River.

The river is raising some, and the marks are now 4.2 feet. Heavy rain up the Allegheny is the cause. Down—Keystone State and Ben Hur.

ROBISON IS ON TRIAL.

CONTINUED FROM FIRST PAGE.

me to come up quick, that the man had murdered his wife," said George Parry. "We went up stairs, and I knocked. The door opened and Weigand went in first. Robison and his wife were in the room, and Morrow and Donaldson were behind us. The woman lay on the floor. I walked up and saw the bullet hole in her head. Robison raised up and wiped the blood from her face. Robison gave me the letter, but I did not read it. I handed it to someone else. I didn't read it until afterward. It was the letter he handed me."

Mr. Potts here showed him the three copies of the letter, and the witness readily selected the one with a portion of the last page torn off. "I was not there when Mrs. Robison died."

"I saw Robison with Weigand before I saw him in the room. There was Morrow, Kinney and a doctor in the bar at that time. Morrow and Doc. Kinney were both there when Weigand came in. He said something about that fellow murdering his wife. It is hard to tell who went upstairs first, but I got to the door first. I knocked twice."

Prosecutor Speaker questioned the witness as to the amount of blood in the room and the condition of Robison when he came into the bar.

"He seemed nervous," said Parry. "When he shook hands with me he squeezed my hand."

Ed Blackburn was called and testified: "I am a barber at Fourth and Washington streets. Robison came in about 4 o'clock and got shaved. He was there half an hour. When he came in I thought he acted scared. He asked how long he would have to wait. He was not in a very good humor. He left his satchel. It contained a working suit of clothes, a paper of tobacco, half pint of whisky, a piece of pound cake and some letters. Mr. Grosshans got the satchel. The letters had been written by his wife from the Hotel Grand."

"He had a wild look when he came in," said the witness on cross-examination. "He seemed worried."

Miss Lee, of Beaver, was the next witness. She was neatly dressed and self possessed. "I was there that day. Robison came to the door of our room. He came in. I saw him later on the stairs. He said: 'Is that you Alice?' I said no. He said, 'did she come in yet,' I said no. I don't know which way he went. I did not see him until after the shot. I went to the room and opened the door. She lay on the floor. I went in the second time, and he said 'that is what a woman gets for trifling with their husbands.'"

"I lived six months in Pittsburg, doing housework. Miss Alice Cody is the proprietor of the house. There are five or six ladies there. I don't know that it is a house of prostitution. I can't say under oath that it is a house of prostitution. When I was away from there I was visiting relatives. I was born and raised in Beaver Falls. I am a walker. Della Hayes is the name under which I went in the walking match. I met Mrs. Robison at Kenugh's saloon in Diamond street. She was introduced to me by Mr. Allen. I saw Robison at 4 o'clock in Liverpool at room 23. I did not know Robison. He asked me if his wife was there and if that was her room. I saw him again in three-quarters of an hour; met him on the stairs. He asked if it was Alice, and I said no. Then he said, 'I will put her out of the business when I do get her.' This was 15 minutes before the shooting. After the shooting I went in the room. The door was closed, and Robison was kneeling beside his wife, who lay with her head toward the door. I asked him what was wrong and he said: 'Nothing.' Then I left the room."

"You didn't scream?"

"Why, no."

"I went back to see what was going on, and Robison was still kneeling by his wife. He got up off his knees. There were people in the hall, but I don't know who. It was probably Weigand, Parry and the porter. Robison said: 'This is what women get for trifling with their husbands.'"

"It was 15 or 20 minutes after 4 that I met Robison on the stairs. I next saw him in the room," she said, in answer to a question from Judge Smith.

Mabel Lee had not until this time appeared in the case, although it was known that someone knew she knew something of importance. Her appearance in court this morning was a surprise to all except the state's attorney. Robison seemed very much interested in her testimony, as he never took his eyes from her.

The morning train brought in a large number of witnesses from East Liverpool, and they will probably be called this afternoon.

THE DOCTORS

Are Giving Their Testimony This Afternoon.

LISBON, June 15.—[Special.]—Doctor Ogden, Doctor Norris, Doctor Ikirt and Doctor Beane will testify this afternoon as to what they know of the case. Mr. Speaker stated that the prosecution would complete its work this afternoon or early tomorrow morning. Sheriff Gill went to Pittsburg this morning, but those who know of his mission will say nothing about it.

IT WILL BE SENSATIONAL.

The Defense Will Have Much Startling Testimony.

LISBON, June 15.—[Special.]—Parties most interested in the conviction or acquittal of Zach Robison have little to say where it can be heard in the inner circles of the prosecution or defense. Prosecutor Speaker advises those of an inquiring turn to watch developments in court, while Judge Young and Attorney Grosshans work much and have little time for conversation. It is true that the contending attorneys are laboring as though the financial returns would be very much more than they can ever hope to obtain.

It was learned early this morning that when the witnesses for the defense are seated on that old chair in the courtroom there will be testimony of a startling nature. Tom Robison, the son of the accused, who worked with his father and knew him perhaps better than any other person on earth, will be an important witness, while William Robison, the brother of the prisoner, who has not yet come from Beallsville, but is expected on every train, will doubtless tell something of interest.

David Robison arrived here last night from Pansutawney, where he is employed as a tailor. He is well dressed, respectable in appearance and feels bitterly the position in which his father is placed. When yet a youngster he did not like the manner of life led by the dead woman and Robison and left home. He learned the trade which has since made him a livelihood, and among other places was employed by the Blackmores in Liverpool. This was 11 years ago, and he went away bearing with him a friendly feeling for the town. Now the mere mention of it is sufficient to make him start.

It is reliably stated that when the defense is well started stories told by some witnesses will rival in sensationalism the most sensational portion of the notorious McGregor case, and the general public will have just cause to hold up its hand in holy horror.

THAT AFFIDAVIT.

What Mrs. Robison Was Expected to Testify.

LISBON, June 15.—[Special.]—Yesterday, when a motion for a continuance was filed, nothing was given out for publication, but it has been learned that the affidavit made by Judge Young says that he had an interview with Mrs. Susan Robison, the aged mother of the prisoner. At that time she was prepared to come to Lisbon, and believed she would have been an important witness. Several years ago she was stricken with paralysis and yesterday she was too ill to leave home.

Judge Young swears that she would testify that Zach was born in 1851, and from the time he was five or six years old he was puny and sickly and frequently had epileptic fits. When she would correct him he would fall to the floor in convulsions and remain unconscious. When he became angry the same effect was noticed. She would also say that Daniel Flick, one of his maternal uncles, was afflicted with brain trouble, resulting in complete paralysis. Michael Flick a cousin, was deaf and dumb from infancy, and had epileptic, or falling fits. Her mother once fell into an apoplectic fit before she died, and was paralyzed unto the end.

This was admitted, and when the defense opens its case it will be presented. It will be used to show that Zach came from a race afflicted to a greater or less degree with brain trouble.

ENJOYED THE DAY.

Witnesses Who Wearied of a Close, Hot Room.

LISBON, June 15.—[Special.]—During the progress of the trial yesterday a number of witnesses were detained in the room set apart for that purpose. It was hot and sultry, and they soon wearied of their quarters. At length someone discovered that the room was built over an old stairway, and by raising a trap door they could easily reach the street. This a number of them did, much to the dissatisfaction and annoyance of the court officials. It is also said

that thirst consumed a number of them; but they were liberally provided at drinking places in the neighborhood. There will be none of it today. Deputy Supplee discovered the leak, and exercising his ability as a carpenter, soon made it so that all witnesses can only leave the room to enter the presence of the court.

A DOZEN EXPERTS

Will Be Called to Testify by the Prosecution.

LISBON, June 15.—[Special.]—The statement of the defense that insanity will prove the greatest part of its argument has stirred the prosecution to renewed activity. It is believed that the witnesses for the state will have testified before evening comes, but in rebuttal there will be no less than a dozen experts, who will tell a great deal about insanity. If the case goes to the jury before Friday night, any number of people will be surprised. There is no telling where this expert testimony will reach; but there will likely be enough on each side to puzzle even the prisoner.

SECRETARY CHARLES.

His Many Friends Will Be Glad to Hear Good News.

When Alvin H. Bulger returned from Pittsburg last night, he brought the sad news that the attending physicians and nurses thought it impossible for Mr. Charles to recover. Later, Mr. J. T. Roberts received word that the patient had slightly improved and had a chance for life. At 2:40 this afternoon the NEWS REVIEW called up the Allegheny hospital, when Mr. Roberts, who today went to the sick man's bedside, replied that Secretary Charles was slightly better, and that the attending physician has hopes of his full recovery.

A Trumpeter's Courage.

During a French campaign in Africa many brave deeds were done, but none braver perhaps than Trumpeter Escoffier's rescue of his captain.

The Arabs were pressing the cavalry of Captain De Cott, and everything was in confusion, when De Cott's horse was killed under him and the capture of the officer and the whole company seemed inevitable.

At that moment the trumpeter of the company leaped from his horse and gave it to De Cott, saying: "Take him. Your life is necessary; mine is useless. You can rally the men. It does not matter about my neck."

De Cott mounted the horse, rallied the company and continued the fight. Trumpeter Escoffier was taken prisoner, but the Arabs, who adore courage, had witnessed the scene and, appreciating the nobility of the man, treated him with generosity. His trumpet was a source of great entertainment to his captors, who used often to make him give the signals of the various military movements. One day Escoffier gave the whole repertory with great gusto, finishing up by blowing the summons for a charge with an extended flourish.

"What was that?" asked the Arab chief.

"Ah," said Escoffier, "you will hear that soon, I hope! That is the signal for a charge!"—Youth's Companion

### Two Children Burned to Death at Dayton.

### LOCKED IN EACH OTHER'S ARMS.

They Had Fired the House While at Play in the Upper Story—Their Charred Bodies Found by the Firemen—News Over the State.

DAYTON, O., June 15.—When the firemen extinguished the fire at the home of Frank Prestel, a laborer, on Nassau street, they found the badly charred bodies of Rose, aged 6, and Albert, aged 2 years, locked in each other's arms.

The children had played with matches and set fire to the upper part of the house. The mother discovered the danger of her children too late to save them.

### GREAT DESTITUTION PREVAILS.

#### A Report Made to Pennsylvania Senate Regarding Anthracite Miners.

HARRISBURG, June 15.—The joint committee appointed to investigate the condition of the miners in the anthracite coal regions has made its report to the senate.

Senator Meredith, chairman of the committee, presented the report.

"The testimony taken," says the report, "shows conclusively the deplorable condition of affairs for a period covering about two years, and particularly since Jan. 1 of the present year, since which time the men in and about the collieries have been employed not more than two or two and three-fourths days a week, earning on an average about \$4 per week, upon which, in many instances, they are compelled to support large families. There is greatest destitution and want in Mahanoy City and its vicinity, Hazleton and its vicinity, Shamokin and its vicinity and Wilkes-Barre and its vicinity."

The committee makes these recommendations:

First—The enactment of a law abolishing company stores.

Second—The prohibiting of discounting or negotiating money orders belonging to the miners.

Third—The enactment of a compulsory semi-monthly pay law.

Fourth—The repeal of the miners' examining law and the enactment of a law providing for a state board of examiners and that certificates issued by the board shall entitle the holder thereof to be employed in any mine in the state.

Fifth—The enactment of a law providing for the appointment of an inspector of coal, to examine the coal as it comes from the mines.

Sixth—The passage of a resolution requesting Pennsylvania representatives in congress to vote for and urge the passage of a law restricting foreign immigration.

The senate adopted the report.

### THE IMMIGRANTS SAVED.

#### A Big Fire at Government Station on Ellis Island This Morning.

NEW YORK, June 15.—The United States government station on Ellis Island, in New York harbor, was destroyed by fire this morning but with probably no loss of life. Help was sent from this city.

The end of the building in which the fire started was used for sleeping, cooking and eating by the immigrants. The detention pen, in which there are always a considerable number of immigrants being held for investigation, was soon consumed.

Besides the buildings mentioned there are a hospital, the offices of the commissioners, a laundry, a disinfecting department and great cisterns in which are stored large quantities of rain water gathered from the roofs of the buildings.

The physicians and minor officials live in detached smaller buildings.

It is presumed at this hour that these, with all the other buildings on the island, will be destroyed.

The valuable records are undoubtedly destroyed.

The 200 immigrants were safely transferred from the island to the large office at the battery, leaving no one on the island except the firemen and a few attendants.

Mary Ellen Brown, the First One Commissioned in Kentucky.

Mary Ellen Brown of Georgetown is the first colored woman in that portion of Kentucky, and perhaps in the state, who has been appointed notary public. She is unmarried, was born in this city Oct. 28, 1868; is the daughter of Weston Brown (deceased) and Harriet Brown (the latter still living), two colored people always held in high esteem by the whites who knew them

from childhood. Mary Ellen was educated at the colored schools in this city, graduating at the Georgetown colored city school in 1886, and was elected that fall one of the teachers in the school where she had graduated, which position she held for seven years, but resigned to accept a more lucrative one as teacher at another school in this county. After leaving the Georgetown school she taught two years in this county and one year in Shelby county, this state. As a pupil she was industrious, as a teacher painstaking. She received her appointment and commission as notary public and qualified in a few days thereafter. She has already had some work from the colored people who are seeking pensions or increases of pensions, and expects to get most of it from her race in that line and from those who now draw pensions in taking the necessary proofs to secure each payment. As her picture indicates, she is a true type of her race.—Cincinnati Commercial Tribune.

There is always an abundant supply of stories of the expertness of Hindoo jugglers and acrobats. One who moves about perched upon a single long stick is the latest novelty. This performer is mounted on a bamboo pole about 15 feet high, the top of which is tied to a girdle worn around his waist. A small cushion is fastened a few feet down the pole, which acts as a leg rest. The acrobat hops around a large space in the liveliest way, uttering cheerful shouts and accompanied by the tapping of a curious drum. He also executes a sort of dance and goes through a little pantomime. It is a marvelous feat of equilibrium. To walk on a pair of stilts as high as this would be a performance worthy of exhibition on our variety stage. But to hop around on one is quite another thing.

GREAT DESTITUTION PREVAILS.

A Report Made to Pennsylvania Senate  
Regarding Anthracite Miners.

HARRISBURG, June 15.—The joint  
committee appointed to investigate the  
condition of the miners in the anthra-  
cite coal regions has made its report to  
the senate.

Senator Meredith, chairman of the  
committee, presented the report.

"The testimony taken," says the re-  
port, "shows conclusively the deplora-  
ble condition of affairs for a period cov-  
ering about two years, and particularly  
since Jan. 1 of the present year, since  
which time the men in and about the  
collieries have been employed not more  
than two or two and three-fourths days  
a week, earning on an average about \$4  
per week, upon which, in many in-  
stances, they are compelled to support  
large families. There is greatest destitu-  
tion and want in Mahanoy City and its  
vicinity, Hazleton and its vicinity,  
Shamokin and its vicinity and Wilkes-  
barre and its vicinity."

The committee makes these recom-  
mendations:

First—The enactment of a law abol-  
ishing company stores.

Second—The prohibiting of discount-  
ing or negotiating money orders belong-  
ing to the miners.

Third—The enactment of a compul-  
sory semi-monthly pay law.

Fourth—The repeal of the miners'  
examining law and the enactment of a  
law providing for a state board of ex-  
aminers and that certificates issued by  
the board shall entitle the holder  
thereof to be employed in any mine in  
the state.

Fifth—The enactment of a law pro-  
viding for the appointment of an in-  
spector of coal, to examine the coal as  
it comes from the mines.

Sixth—The passage of a resolution  
requesting Pennsylvania representa-  
tives in congress to vote for and urge  
the passage of a law restricting foreign  
immigration.

The senate adopted the report.

# PRESIDENT AT HOME.

The McKinley Party Reached Washington This Morning.

## THE MAJOR REBUKED A CAD.

Vanderbilt's English Manager Denied the Journalists Admittance to Biltmore House—The President Refused to Enter Until the Ban Was Removed.

WASHINGTON, June 15.—The president and party returned home from Nashville this morning at 7:30.

ASHEVILLE, N. C., June 15.—An unexpected incident of President McKinley's visit developed when it became known to newspaper men accompanying the party that permission to enter Biltmore house, George W. Vanderbilt's splendid mansion, had been refused to them while extended to other members of the party. Mr. Vanderbilt is abroad and his representative, Charles McNamee, is with him. In the absence of both, the estate is governed by E. J. Harding, said to be an Englishman by birth.

When waited on by the local committee of arrangement a day or two ago for permission for the president and party to enter Biltmore House he objected strongly to receiving any members of the party other than the president and his cabinet and the ladies with them. He even refused permission to Manager McKissick of Battery Park hotel, in charge of the party here and in the course of conversation had with two members of the committee said:

"Mr. Vanderbilt spits on newspaper notoriety and so do I."

After this there was nothing for the local committee to do but withdraw. So the matter rested until the president arrived and J. Addison Porter, his secretary, was told of the incident. He must have informed the president, for later Mr. Harding was called up on the telephone by Mr. Porter and asked if it were true that newspaper men would not be admitted to the mansion. Porter was told that it was, and he then informed Mr. Harding that the president considered the newspaper men his invited guests on the trip and that they were as much a contingent of the party as members of the cabinet.

Furthermore, Mr. Porter notified Mr. Harding that the president had authorized him to say that if the newspaper men were barred from the mansion he would not step his foot inside the estate. This brought things to a crisis and Mr. Harding capitulated with the best grace possible and the newspaper men were admitted to the mansion on the same footing as the president and his cabinet.

Before going to Biltmore, Representative Pearson persuaded Mr. McKinley to attend a meeting at the Young Men's Institute hall for colored people, the gift of George W. Vanderbilt. The hall was filled to its utmost capacity with colored people, comprising the laboring classes as well as local colored politicians and their wives and children. With Congressman Pearson on one side for ten minutes he shook hands at a rapid rate with all who were presented to him. It was very warm work.

Presently the president called for air and seven colored men fanned him while the hand shaking went on. At Biltmore the luxuries of the library were lingered over with especial delight. Mrs. McKinley was given a handsome bouquet from Mr. Vanderbilt's conservatories as she left the chateau. The drive continued over the French broad boundaries of the estate from the river cottage to the entrance lodge, and the Biltmore incident was closed.

The train was taken at Biltmore station and the journey to Washington then resumed.

## THE DIAMOND KING DEAD.

Barney Barnato Either Fell From a Steamer or Suicided.

LONDON, June 15.—The Daily Telegraph, which announces the death of Barney Barnato, while a passenger on the steamship Scot from Cape Town,

BARNEY BARNATO.

says, on the authority of a news agency, that he fell overboard. One report says he suicided. Barnato was in many respects the most remarkable speculator of the century. He was an English Jew. He went to South Africa when 20 years of age, and began life by exhibiting a trick monkey. He began dealing in diamonds in a small way, and later became owner of the diamond mines. In 1895, when the excitement over the new gold mines in the Transvaal was at its height, Barnato was estimated to be worth \$150,000,000. Barney Barnato was an assumed name. His name was Barnett Isaacs. About a month ago it was rumored that his health was suffering from nervous prostration as a result of the severe tension of speculation. He had a wife and three children in South Africa.

Porter at the Luncheon.

PARIS, June 15.—The United States ambassador, General Horace Porter

was a guest at the luncheon which the minister for foreign affairs, M. Hanotaux, gave in honor of Crown Prince Ito of Japan and other foreign representatives who are on their way to attend the diamond jubilee of Queen Victoria.

## 6,000,000 PLEAS FOR CUBA.

A Monster Wheel of Sympathies Presented to the House.

WASHINGTON, June 14.—The house adjourned until Thursday after a session that lasted 45 minutes. The only attempt to transact business was a request by Mr. Laney (Rep., Ia.) for unanimous consent for a bill for the relief of residents of Greene county, O. T. Mr. Henry (Dem., Tex.) promptly objected and then, after the usual Democratic protest against the Republican policy of not appointing committees, the house, by 88 to 78, with 15 present and not voting, decided to adjourn.

Before the session began the hub of a wheel would round with a monster petition said to contain 6,000,000 signatures appealing to congress to recognize the Cuban insurgents as belligerents, was wheeled into the space in front of the speaker's rostrum. It had been in circulation throughout the United States for about six months and was presented to congress by Representative Sulzer of New York.

## MAY TACKLE TRUSTS.

The Republican Caucus Refers the Matter to a Committee.

WASHINGTON, June 15.—In accordance with the action of the Republican caucus last night when the sugar schedule was taken up in the senate today and the voting stage was reached on the Pettigrew amendment against trusts, Senator Allison asked that the vote be postponed until the consideration of the tariff bill as a whole shall be completed. He also asked to have the Hawaiian reciprocity question postponed for the present.

Senator Carter, in the caucus, urged the party in very strong terms to take hold of the trust question at the present time, saying it was going to be without doubt the important question of the future. He expressed the opinion that both the questions of tariff and finances would soon be subordinated to that of trusts. There was no division on Mr. Carter's proposition to refer the matter to the judiciary committee. It was the understanding that an early report would be made to the Republican caucus.

The Hawaiian question was the first matter taken up after the caucus opened. This subject had been referred to the finance committee and Senator Allison, speaking on behalf of the committee, said that it had been deemed advisable to pass the matter over on account of the strong probability of more important happenings in connection with Hawaii. He was understood by all the senators present to refer to the report that a treaty of annexation had been negotiated. There was therefore no opposition when it was suggested that the Hawaiian treaty be passed over.

## BOUNDARY TREATY RATIFIED.

England and Venezuela Will Now Arbitrate the Long Dispute.

WASHINGTON, June 15.—The final ratification of the boundary treaty between Great Britain and Venezuela has been exchanged at the state department.

The scene was the diplomatic reception room in the state department. There were present in the room Sir Julian, Senor Andrade, the Venezuelan minister, and his secretary of legation, Acting Secretary of State William R. Day and Assistant Secretary Thomas W. Cridler who has been instrumental in framing the various treaties, protocols and other writings connected with the treaty. What remained to be done was to exchange the copies of the treaties held by each party, and to sign what is known as the exchange protocols. The treaty now becomes binding upon both governments, Great Britain and Venezuela, and they must at once begin the preparation of the cases to be submitted to the arbitrators, who will meet in Paris for organization, probably some time next winter. The connection of the United States government with the negotiations now ceases.

## MISSISSIPPI REBELS.

State Medical Board Locks Horns With the Treasury Department.

WASHINGTON, June 15.—Recently the treasury department declined to accept bills of health furnished by the Mississippi state board as sufficient, especially as a government station, fully equipped, is located at that point.

It is understood that the state board threatens to prevent the landing at Biloxi of the supply boat with supplies for the government quarantine station unless the government recedes from its position as to recognizing the state board. The matter was under discussion at the treasury department and it was decided to stand by its former action.

## Rivera Not Sentenced to Die.

WASHINGTON, June 15.—The Spanish minister here has received an official communication stating that the report coming from Habana via Key West that the insurgent leaders, Rivera and Bacallao, are in danger of being shot is false, for not a single insurgent leader is under the death sentence.

## Moncure D. Conway Resigns.

LONDON, June 15.—Moncure D. Conway, minister of the South Place Ethical society, has resigned his position, owing to the health of his wife.

## A Pretty Resort.

A sojourn at Winona Assembly Grounds at Eagle Lake, Ind., near Warsaw, on the Fort Wayne route, will prove a pleasant summer outing. This delightful resort is the site of the youngest of the Chautauqua assemblies, and its attractions combine facilities for recreation, entertainment, instruction and devotion.

Eagle Lake is a beautiful sheet of water, surrounded by several hundred acres of romantic woodland which covers one stretch of nearly two miles. The lake affords opportunity for aquatic pastimes, the boating, bathing and fishing being excellent. In addition to numerous row-boats there are several pleasure steamers on the lake.

The shady grounds are occupied by many pretty cottages and summer homes of persons who annually enjoy the beauties of the place, strengthening body in the invigorating atmosphere and enriching the mind by the special advantages the summer school offers.

A fine park has been laid out on the shore of the lake. A large auditorium, amphitheatre, college halls, hotels and restaurant have also been constructed on the grounds for the accommodation of visitors. There is also a race track and space set aside for out-door athletic sports.

In addition to the Presbyterian General Assembly which will be in session on the Assembly Grounds from May 20 to June 2, a number of other large meetings will be held on the grounds during the summer of 1897, including the Indiana State Sunday School Convention, Western Association of Writers, Indiana State W. C. T. U., Indiana Y. M. C. A., Encampment, National Medical Society, Boys' Brigade, and Indiana State Christian Endeavor Convention.

Excursion tickets to Eagle Lake will be on sale via Pennsylvania Lines during the summer season. Details regarding rates, time of trains, etc., may be ascertained by addressing the nearest passenger or ticket agent of the Pennsylvania lines, or by applying to F. Van Dusen, chief assistant general passenger agent, Pittsburg, Pa. Full information concerning the Assembly and Summer School, cost of entertainment, etc., may be secured upon application to Secretary Sol. C. Dickey, Eagle Lake, Ind. \*

## To Grow Teeth.

A Moscow dentist has solved the problem of supplying the human mouth with false teeth which will grow into the gums as firmly as natural ones. Dr. Zamensky has performed several successful operations on dogs as well as human beings. The teeth are made of gutta percha, porcelain or metal, as the case may be.

At the root of the false tooth holes are made. Holes are also made upward into the gum. The tooth is then placed in the cavity. In a short time a soft, granular growth finds its way from the gum up into the holes in the tooth. The growth gradually hardens and the tooth is in position.

It is stated that it does not matter whether the cavity in which the tooth is to be placed is one from which a natural tooth has been recently drawn or whether it has been healed for some years.—New York Letter.

## X Rays and Diamonds.

One excellent use to which the new X rays can be put should interest women. It seems that by their aid one can readily determine whether diamonds are real or false, for the rays pass quite through real diamonds, leaving them transparent, and not at all through false ones. A real parure when photographed would show only the mounting, but in a false one all the stones would turn out black. Strangely enough, the X rays will not penetrate glass. Eyeglasses, if photographed, come out black. This proved useful in the case of a Vienna glassworker who got a bit of glass into his finger. By the aid of the rays it was discovered, extracted and the workman cured.—St. James Gazette.

## Consoling.

A New England congressman once went to Franklin Pierce demanding an office for a constituent. Pierce sent him to James Guthrie, secretary of the treasury. By and by the congressman returned to the president in great dudgeon.

"What did Guthrie say to you about appointing your friend?" inquired the president. "He said he would be d——d if he would."

"Did Guthrie talk that way to you?"

"He did."

"Well, that's the way he talks to me, too," was Pierce's consoling reply.

## Jr., O. U. A. M. Excursion.

To Pittsburg, June 13, 14 and 16, excursion tickets at one fare for the round trip will be sold from Alliance, Bellaire, Youngstown, Sharon, Cadiz, Dennison, Wheeling, New Cumberland, Washington, Pa., and intermediate ticket stations on the Pennsylvania lines, account Jr., O. U. A. M. daylight parade and general celebration. Excursion tickets will be good returning until June 17, inclusive. \*

## Low Rates.

Special reductions in fare over the Pennsylvania lines will be granted for numerous events to take place this summer in various parts of the United States, in addition to local excursions. Some of the points to which tickets will be sold and dates of sale are as follows:

To Nashville, Tenn., daily to October 15, for Tennessee Centennial and International exposition.

To Winona assembly grounds, Eagle Lake, (near Warsaw, Ind.) May 15 to August 31, for annual assembly and summer school.

To Celoron (Chautauqua Lake,) July 11 and 12, account Photographers Association of America.

To Toronto, Canada, July 13, 14 and 15, for Epworth League National convention.

To Minneapolis, July 3 and 4, for national meeting, B. P. O. Elks.

To Chattanooga, July 13, 14 and 15, account Baptist Young Peoples' union, of America.

To Detroit, July 12 and 13, for National Republican League meeting.

To Cincinnati, July 21 and 22, for German Epworth League meeting.

To Indianapolis, August 17 and 18, for Young People's Christian union annual convention.

To Indianapolis, September 8 and 9, for National Encampment Sons of Veterans.

The reduced rates over the Pennsylvania lines will not be restricted to members of the organizations mentioned, but may be taken advantage of by the public generally. Excursion tickets may be obtained at ticket offices on the Pennsylvania system and will also be sold over this route by connecting railways. Any Pennsylvania line ticket or passenger agent will furnish desired information concerning rates, time of trains, return limit, and other details, to all applicants, or the same may be obtained by addressing Samuel Moody, assistant general passenger agent, Pittsburg, Pa.

## New Entrance to New York.

All are convenient locations; Cortlandt street and Desbrosses street, in the downtown district, and Twenty-third street in the uptown district. The latter entrance will be formally opened May 16, when two new, commodious ferryboats, double-deckers, constructed especially for the Pennsylvania lines and furnished and fitted in up-to-date style, will be placed in service between the Jersey City station and Twenty-third street, connecting with all inbound and outbound trains over the Pennsylvania system, the same as the boats running between that station and Cortlandt street and Desbrosses street, which will also continue in the service.

The Pennsylvania lines' three entrances into New York enable passengers to quickly reach the business portion in the lower end of the city, as well as the hotels and business blocks in the very heart of the great metropolis. The ride across the river is a delightful and refreshing termination to an enjoyable trip. All through trains from the west, over the Pennsylvania lines, land passengers in New York between 9:30 a. m., and 9:30 p. m., treating them to a grand view of the city's water front; its extensive docks where at almost any time may be seen ships of many nations. The wonderful panorama gives visitors a slight idea of the magnitude of New York. The new Twenty-third street ferry line is particularly noteworthy in this respect. \*

## Summer Outing.

The principal places of summer sojourn along the Atlantic ocean in the Alleghenies, the Adirondacks, Catskills, and mountains of the east, and in the lake region and Northern Michigan and the northwest, may be readily reached over the Pennsylvania lines.

Special information regarding the leading resorts and the advantages enjoyed in journeying to them over the Pennsylvania route has been compiled and printed in convenient form. The matter is profusely illustrated with photographic reproductions of seashore scenes and includes views at Atlantic City, Cape May, Long Branch and other resorts along the Atlantic coast; also of Cresson, Bedford Springs, and romantic mountain retreats, and of Petoskey, Mackinac, and the summer havens in Michigan and the northwest.

Persons contemplating summer outing trips will find it a valuable guide in shaping preliminaries. Copies may be obtained by addressing D. C. MacWaters, district passenger agent, Pittsburg, Pa.

## Excursion to Chillicothe.

June 14, 15 and 16, excursion tickets will be sold to Chillicothe, O., via Pennsylvania lines for annual encampment, G. A. R., Department of Ohio; return coupons valid June 19, inclusive. \*

—Miss Mary Gethings has returned to her home in Pittsburg yesterday.

# PRESIDENT AT HOME.

The McKinley Party Reached Washington This Morning.

THE MAJOR REBUKED A CAD.

Vanderbilt's English Manager Denied the Journalists Admittance to Biltmore House—The President Refused to Enter Until the Ban Was Removed.

WASHINGTON, June 15.—The president and party returned home from Nashville this morning at 7:30.

ASHEVILLE, N. C., June 15.—An unexpected incident developed when it became known to newspaper men accompanying the party that permission to enter Biltmore house, George W. Vanderbilt's splendid mansion, had been refused to them while extended to other members of the party. Mr. Vanderbilt is abroad and his representative, Charles McNamee, is with him. In the absence of both, the estate is governed by E. J. Harding, said to be an Englishman by birth.

When waited on by the local committee of arrangement a day or two ago for permission for the president and party to enter Biltmore House he objected strongly to receiving any members of the party other than the president and his cabinet and the ladies with them. He even refused permission to Manager McKissick of Battery Park hotel, in charge of the party here and in the course of conversation had with two members of the committee said:

"Mr. Vanderbilt spits on newspaper notoriety and so do I."

After this there was nothing for the local committee to do but withdraw. So the matter rested until the president arrived and J. Addison Porter, his secretary, was told of the incident. He must have informed the president, for later Mr. Harding was called up on the telephone by Mr. Porter and asked if it were true that newspaper men would not be admitted to the mansion. Porter was told that it was, and he then informed Mr. Harding that the president considered the newspaper men his invited guests on the trip and that they were as much a contingent of the party as members of the cabinet.

Furthermore, Mr. Porter notified Mr. Harding that the president had authorized him to say that if the newspaper men would not step his foot inside the estate. This brought things to a crisis and Mr. Harding capitulated with the best grace possible and the newspaper men were admitted to the mansion on the same footing as the president and his cabinet.

Before going to Biltmore, Representative Pearson persuaded Mr. McKinley to attend a meeting at the Young Men's Institute hall for colored people, the gift of George W. Vanderbilt. The hall was filled to its utmost capacity with colored people, comprising the laboring classes as well as local colored politicians and their wives and children. With Congressman Pearson on one side for ten minutes he shook hands at a rapid rate with all who were presented to him. It was very warm work.

Presently the president called for air and seven colored men fanned him while the hand shaking went on.

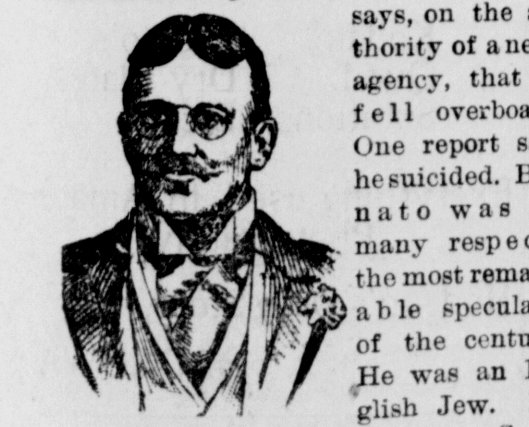

At Biltmore the luxuries of the library were lingered over with especial delight. Mrs. McKinley was given a handsome bouquet from Mr. Vanderbilt's conservatories as she left the chateau. The drive continued over the French border boundaries of the estate from the river cottage to the entrance lodge, and the Biltmore incident was closed.

The train was taken at Biltmore station and the journey to Washington then resumed.

THE DIAMOND KING DEAD.

Barney Barnato Either Fell From a Steamer or Suicided.

LONDON, June 15.—The Daily Telegraph, which announces the death of Barney Barnato, while a passenger on the steamship Scot from Cape Town,

BARNEY BARNATO.

He was an English Jew. He went to South Africa when 20 years of age, and began life by exhibiting a trick monkey. He began dealing in diamonds in a small way, and later became owner of the diamond mines. In 1895, when the excitement over the new gold mines in the Transvaal was at its height, Barnato was estimated to be worth \$150,000,000. Barney Barnato was an assumed name. His name was Barnett Isaacs. About a month ago it was rumored that his health was suffering from nervous prostration as a result of the severe tension of speculation. He had a wife and three children in South Africa.

Porter at the Luncheon.

PARIS, June 15.—The United States ambassador, General Horace Porter

was a guest at the luncheon which the minister for foreign affairs, M. Hanotaux, gave in honor of Crown Prince Ito of Japan and other foreign representatives who are on their way to attend the diamond jubilee of Queen Victoria.

6,000,000 PLEAS FOR CUBA.

A Monster Wheel of Sympathies Presented to the House.

WASHINGTON, June 14.—The house adjourned until Thursday after a session that lasted 45 minutes. The only attempt to transact business was a request by Mr. Laney (Rep., Ia.) for unanimous consent for a bill for the relief of residents of Greene county, O. T. Mr. Henry (Dem., Tex.) promptly objected and then, after the usual Democratic protest against the Republican policy of not appointing committees, the house, by 88 to 78, with 15 present and not voting, decided to adjourn.

Before the session began the hub of a wheel wound round with a monster petition said to contain 6,000,000 signatures appealing to congress to recognize the Cuban insurgents as belligerents, was wheeled into the space in front of the speaker's rostrum. It had been in circulation throughout the United States for about six months and was presented to congress by Representative Sulzer of New York.

MAY TACKLE TRUSTS.

The Republican Caucus Refers the Matter to a Committee.

WASHINGTON, June 15.—In accordance with the action of the Republican caucus last night when the sugar schedule was taken up in the senate today and the voting stage was reached on the Pettigrew amendment against trusts, Senator Allison asked that the vote be postponed until the consideration of the tariff bill as a whole shall be completed. He also asked to have the Hawaiian reciprocity question postponed for the present.

Senator Carter, in the caucus, urged the party in very strong terms to take hold of the trust question at the present time, saying it was going to be without doubt the important question of the future. He expressed the opinion that both the questions of tariff and finances would soon be subordinated to that of trusts. There was no division on Mr. Carter's proposition to refer the matter to the judiciary committee. It was the understanding that an early report would be made to the Republican caucus.

The Hawaiian question was the first matter taken up after the caucus opened. This subject had been referred to the finance committee and Senator Allison, speaking on behalf of the committee, said that it had been deemed advisable to pass the matter over on account of the strong probability of more important happenings in connection with Hawaii. He was understood by all the senators present to refer to the report that a treaty of annexation had been negotiated. There was therefore no opposition when it was suggested that the Hawaiian treaty be passed over.

BOUNDARY TREATY RATIFIED.

England and Venezuela Will Now Arbitrate the Long Dispute.

WASHINGTON, June 15.—The final ratification of the boundary treaty between Great Britain and Venezuela has been exchanged at the state department.

The scene was the diplomatic reception room in the state department. There were present in the room Sir Julian, Senor Andrade, the Venezuelan minister, and his secretary of legation, Acting Secretary of State William R. Day and Assistant Secretary Thomas W. Cridler who has been instrumental in framing the various treaties, protocols and other writings connected with the treaty. What remained to be done was to exchange the copies of the treaties held by each party, and to sign what is known as the exchange protocols.

The treaty now becomes binding upon both governments, Great Britain and Venezuela, and they must at once begin the preparation of the cases to be submitted to the arbitrators, who will meet in Paris for organization, probably some time next winter. The connection of the United States government with the negotiations now ceases.

MISSISSIPPI REREELS.

State Medical Board Locks Horns With the Treasury Department.

WASHINGTON, June 15.—Recently the treasury department declined to accept bills of health furnished by the Mississippi state board as sufficient, especially as a government station, fully equipped, is located at that point.

It is understood that the state board threatens to prevent the landing at Biloxi of the supply boat with supplies for the government quarantine station unless the government recedes from its position as to recognizing the state board. The matter was under discussion at the treasury department and it was decided to stand by its former action.

Rivera Not Sentenced to Die.

WASHINGTON, June 15.—The Spanish minister here has received an official communication stating that the report coming from Habana via Key West that the insurgent leaders, Rivera and Bacallao, are in danger of being shot is false, for not a single insurgent leader is under the death sentence.

Moncure D. Conway Resigns.

LONDON, June 15.—Moncure D. Conway, minister of the South Place Ethical society, has resigned his position, owing to the health of his wife.

A Pretty Resort.

A sojourn at Winona Assembly Grounds at Eagle Lake, Ind., near Warsaw, on the Fort Wayne route, will prove a pleasant summer outing. This delightful resort is the site of the youngest of the Chautauqua assemblies, and its attractions combine facilities for recreation, entertainment, instruction and devotion.

Eagle Lake is a beautiful sheet of water, surrounded by several hundred acres of romantic woodland which covers one stretch of nearly two miles. The lake affords opportunity for aquatic pastimes, the boating, bathing and fishing being excellent. In addition to numerous rowboats there are several pleasure steamers on the lake.

The shady grounds are occupied by many pretty cottages and summer homes of persons who annually enjoy the beauties of the place, strengthening body in the invigorating atmosphere and enriching the mind by the special advantages the summer school offers.

A fine park has been laid out on the shore of the lake. A large auditorium, amphitheatre, college halls, hotels and restaurant have also been constructed on the grounds for the accommodation of visitors. There is also a race track and space set aside for out-door athletic sports.

In addition to the Presbyterian General Assembly which will be in session on the Assembly Grounds from May 20 to June 2, a number of other large meetings will be held on the grounds during the summer of 1897, including the Indiana State Sunday School Convention, Western Association of Writers, Indiana State W. C. T. U., Indiana Y. M. C. A., Encampment, National Medical Society, Boys' Brigade, and Indiana State Christian Endeavor Convention.

Excursion tickets to Eagle Lake will be on sale via Pennsylvania Lines during the summer season. Details regarding rates, time of trains, etc., may be ascertained by addressing the nearest passenger or ticket agent of the Pennsylvania lines, or by applying to F. Van Dusen, chief assistant general passenger agent, Pittsburg, Pa. Full information concerning the Assembly and Summer School, cost of entertainment, etc., may be secured upon application to Secretary Sol. C. Dickey, Eagle Lake, Ind. \*

To Grow Teeth.

A Moscow dentist has solved the problem of supplying the human mouth with false teeth which will grow into the gums as firmly as natural ones. Dr. Zamensky has performed several successful operations on dogs as well as human beings. The teeth are made of gutta percha, porcelain or metal, as the case may be.

At the root of the false tooth holes are made. Holes are also made upward into the gum. The tooth is then placed in the cavity. In a short time a soft, granulated growth starts its way from the gum, growing into the holes in the tooth. The growth gradually hardens and holds the tooth in position.

It is stated that it does not matter whether the cavity in which the tooth is to be placed is one from which a natural tooth has been recently drawn or whether it has been healed for some years.—New Letter.

X Rays and Diamonds.

One excellent use to which the new X rays can be put should interest women. It seems that by their aid one can readily determine whether diamonds are real or false, for the rays pass quite through real diamonds, leaving them transparent, and not at all through false ones. A real parure when photographed would show only the mounting, but in a false one all the stones would turn out black. Strangely enough, the X rays will not penetrate glass. Eyeglasses, if photographed, come out black. This proved useful in the case of a Vienna glassworker who got a bit of glass into his finger. By the aid of the rays it was discovered, extracted and the workman cured.—St. James Gazette.

Consoling.

A New England congressman once went to Franklin Pierce demanding an office for a constituent. Pierce sent him to James Guthrie, secretary of the treasury. By and by the congressman returned to the president in great dudgeon.

"What did Guthrie say to you about appointing your friend?" inquired the president. "He said he would be damned if he would."

"Did Guthrie talk that way to you?"

"He did."

"Well, that's the way he talks to me, too," was Pierce's consoling reply.—San Francisco Argonaut.

Jr. O. U. A. M. Excursion.

To Pittsburg, June 13, 14 and 16, excursion tickets at one fare for the round trip will be sold from Alliance, Bellaire, Youngstown, Sharon, Cadiz, Dennison, Wheeling, New Cumberland, Washington, Pa., and intermediate ticket stations on the Pennsylvania lines, account Jr. O. U. A. M. daylight parade and general celebration. Excursion tickets will be good returning until June 17, inclusive. \*

Special reductions in fare over the Pennsylvania lines will be granted for numerous events to take place this summer in various parts of the United States, in addition to local excursions. Some of the points to which tickets will be sold and dates of sale are as follows: To Nashville, Tenn., daily to October 15, for Tennessee Centennial and International exposition.

To Winona Assembly grounds, Eagle Lake, (near Warsaw, Ind.,) May 15 to August 31, for annual assembly and summer school.

To Celeron, (Chautauqua Lake,) July 11 and 12, account Photographers Association of America.

To Toronto, Canada, July 13, 14 and 15, for Epworth League National convention.

To Minneapolis, July 3 and 4, for national meeting, B. P. O. Elks.

To Chattanooga, July 13, 14 and 15, account Baptist Young Peoples' union, of America.

To Detroit, July 12 and 13, for National Republican League meeting.

To Cincinnati, July 21 and 22, for German Epworth League meeting.

To Indianapolis, August 17 and 18, for Young People's Christian union annual convention.

To Indianapolis, September 8 and 9, for National Encampment Sons of Veterans.

The reduced rates over the Pennsylvania lines will not be restricted to members of the organizations mentioned, but may be taken advantage of by the public generally. Excursion tickets may be obtained at ticket offices on the Pennsylvania system and will also be sold over this route by connecting railways. Any Pennsylvania line ticket or passenger agent will furnish desired information concerning rates, time of trains, return limit, and other details, to all applicants, or the same may be obtained by addressing Samuel Moody, assistant general passenger agent, Pittsburg, Pa.

New Entrance to New York.

All are convenient locations; Cortlandt street and Desbrosses street, in the downtown district, and Twenty-third street in the uptown district. The latter entrance will be formally opened May 16, when two new, commodious ferryboats, double-deckers, constructed especially for the Pennsylvania lines and furnished and fitted in up-to-date style, will be placed in service between the Jersey City station and Twenty-third street, connecting with all inbound and outbound trains over the Pennsylvania system, the same as the boats running between that station and Cortlandt street and Desbrosses street, which will also continue in the service.

The Pennsylvania lines' three entrances into New York enable passengers to quickly reach the business portion in the lower end of the city, as well as the hotels and business blocks in the very heart of the great metropolis. The ride across the river is a delightful and refreshing reminder to an enjoyable trip. All through trains from the west, over the Pennsylvania lines, land passengers in New York between 9:30 a. m., and 9:30 p. m., treating them to a grand view of the city's water front; its extensive docks where at almost any time may be seen ships of many nations. The wonderful panorama gives visitors a slight idea of the magnitude of New York. The new Twenty-third street ferry line is particularly noteworthy in this respect. \*

Summer Outing.

The principal places of summer sojourn along the Atlantic ocean in the Alleghenies, the Adirondacks, Catskills, and mountains of the east, and in the lake region and Northern Michigan and the northwest, may be readily reached over the Pennsylvania lines.

Special information regarding the leading resorts and the advantages enjoyed in journeying to them over the Pennsylvania route has been compiled and printed in convenient form. The matter is profusely illustrated with photographic reproductions of seashore scenes and includes views at Atlantic City, Cape May, Long Branch and other resorts along the Atlantic coast; also of Cresson, Bedford Springs, and Potomac mountain retreats, and of Petoskey, Mackinac, and the summer havens in Michigan and the northwest.

Persons contemplating summer outing trips will find it a valuable guide in shaping preliminaries. Copies may be obtained by addressing D. C. MacWaters, district passenger agent, Pittsburg, Pa.

Excursion to Chillicothe.

June 14, 15 and 16, excursion tickets will be sold to Chillicothe, O., via Pennsylvania lines for annual encampment, G. A. R., Department of Ohio; return coupons valid June 19, inclusive. \*

—Miss Mary Gethings has returned to her home in Pittsburg yesterday.

## A DWARF IN BATTLE.

Casan Won Praise and Honor From the Great Genghis Khan.

From time to time Mrs. Mary Shears Roberts has contributed to St. Nicholas papers on "Historic Dwarfs." In one number she tells of Casan, a Tartar dwarf who took service under the great Mongolian khan. Mrs. Roberts thus describes his first appearance in battle:

Now, it so happened that Genghis, in order to subdue the deserters from his father's tribes, had dethroned several princes or khans. These petty chiefs had been in the habit of paying tribute to the great sovereign of the Kin empire in North China. This high and mighty potentate now demanded money from Genghis Khan, thereby rousing the ire of our Mongolian warrior, who announced that, rather than pay one cent for tribute he would fight the whole Chinese kingdom. Preparations for war were at once begun, and Casan was delighted when he received orders to join the army. At last his dream was realized. He was going to fight real battles, and he was in command of a body of troops. He bade adieu to his family and with a proud heart set out to meet his sovereign.

As a first step, Genghis Khan invaded western Hea, captured several strongholds and retired in the summer to a place called Lung Ting, in order to escape the great heat of the plains or steppes. While there news reached him that several other khans were preparing for war. He thereupon descended from the heights, marched against his foes and in a pitched battle on the river Irish he overthrew them completely. Casan attracted a great deal of notice on this occasion. He was here, there and everywhere. On his mettlesome charger he bounded into the thickest of the fight, hurling his lance with unerring aim and displaying great courage.

After the fray he was summoned to appear before the conqueror, who complimented the dwarf, saying: "Thy valor and thy courage have completely justified thy promises. From this day forth thou shalt be a khan. Thou shalt have command of a large body of troops and shalt hereafter be my companion in arms."

## COLLEGE FASHIONS.

When Judge Robert Grant Was a Freshman at Harvard.

With the beginning of the second term the freshmen were privileged to wear tall hats and carry canes. They always celebrated their emancipation on the first Saturday of the new term by going in force to the theater in all the splendor of their new possessions, and they were apt to show themselves on Beacon street, Boston, on the following Sunday. In regard to dress on weekdays I recall that among all the students a little round gray soft hat was very popular. The times were rather hard from 1870 to 1880, and many men went in for old clothes. Short pea jackets were in common use. Some of the arbiters of college fashion chose to wear silk hats with them when they wished to appear swell, thereby producing a somewhat mongrel effect. English clothes, or indeed a suit of new clothes, was so much an event that I recollect on the occasion when a member of the class of 1874 imported a suit of lively checks, his friends hung it outside the window of one of the buildings on exhibition.

The yard at that time, as very likely now, was often a lively center for amiable indolence. Besides tossing cents at a mark in front of Holworthy and dropping hot coppers out of the windows for the Cambridge urchins to pick up, I recall the slogan of "Heads out!" which brought every one to his window and from his books many times a week. No woman could cross the yard without hearing it, and events of much less import evoked it. Frequently we had the pleasure of listening to the Glee club, which was then a flourishing body whose repertoire included "Seeing Nellie Home" and "Dearest maiden, dance ever with me; can'st thou refuse me? can'st thou but choose me?" yet pandered to less noble emotions in "Shoo Fly" and the then popular

Ha-ha-ha, you and me,

## Crabs and Lobsters.

In selecting crustaceans the inexperienced housekeeper may be guided by a few easily remembered points. Lobsters that have not been long taken will respond to a pressure of the finger on their eyes with a strong motion of the claws. The heaviest are the best. The cock lobster, though generally smaller, has the higher flavor, the flesh is firmer, and its color, when boiled, is of a deeper red than that of similar characteristics in the hen. The male may be known by his narrow, rather tapering tail, and also from the condition of the two uppermost fins which compose it. These in his case are hard and stiff, while those of the hen are soft, and the tail fan is much broader.

The heaviest crabs are the best, and those of a medium size sweetest. If light, they are watery. When in perfect condition, the joints of the legs are stiff, and the body has an agreeable smell. The eyes, too, should look bright and firmly set. When they have a dead appearance and seem loose, the crab is stale. —New York Post.

## THE WHITE HOUSE.

ARRANGEMENT OF THE OFFICIAL QUARTERS OF THE EXECUTIVE.

Views From the Windows of the East Room—The "Hall of the Disappointed." Telephone Is Almost the Only Modern Improvement in the Building.

Mr. C. C. Buel writes a paper for The Century on "Our Fellow Citizen of the White House," devoted to the official cares and duties of the president, in the course of which he says:

At 10 o'clock a hardly discernible sign against the glass of the barrier announces to the citizen who has arrived under the grand portal that the executive mansion is "open" to visitors. At 2 o'clock the sign is changed to "closed." The doorkeepers swing the doors open to everybody. Within the large vestibule nothing is seen which indicates the arrangement and purposes of the different parts of the mansion. It was not always so, for originally the now concealed corridor, or middle hall, with the staircase on the right, was a part of the entrance hall. Now the spaces between the middle columns are closed with colored glass partitions, and the vestibule is simply a large, square room pleasant to get out of.

No way appears to open to the state apartments in the center or to the west wing, which is devoted to the private apartments. Yet glass doors are there, though as imperceptible to the stranger as a swinging panel. To the left there is a door which is always open. It admits to a small hall, across which a similar door is the side entrance to the great east room. About this splendid room, comprising the whole east end of the mansion, the visitor may wander at will before the portraits or enjoy from the windows the beauty of the treasury building to the east or the impressive landscape to the south, including the towering shaft of the Washington monument and beyond the ever charming Potomac, spreading with enlarging curves toward Mount Vernon, and in the private garden under the windows he may chance to see a merry band of little ones.

From the small hall between the vestibule and the east room a stairway ascends toward the medial line of the building to a wide middle hall, on each side of which are the offices of the president. The arrangement is simple, and in the floor plan covers the space occupied below by the east room and the green room, the latter being the counterpart of the small hall with the public stairway just mentioned. At the head of these stairs, over the green room, is the cabinet room, which is the first apartment in the south side of the hall, a jog of two steps, at the private door into the president's room, marking the raised ceiling of the east room below. The president reaches his office through the cabinet room, entering the latter from the library, which corresponds on the second floor with the blue room of the state apartments. President Arthur indeed used the library as his office and the cabinet chamber for an anteroom, while his private secretary was domiciled in the traditional office of the president. During his first term Mr. Cleveland preserved the same arrangement. But General Harrison went back to the office hallowed by Lincoln's occupancy, and Mr. Cleveland, on his return, found the arrangement so satisfactory that he continued it.

Beyond the president's large, square office is the corner room where Private Secretary Thurber is always either wrestling with the details of executive business or standing with his shoulder braced against the crowd struggling to see the president. It is a narrow apartment and might be called appropriately the "hall of the disappointed," the suggestion being emphasized by portraits of the greatest of presidential aspirants, Clay and Webster, to which Mr. Thurber added, as his private property, an engraving of the closest contestant for the office, Governor Tilden.

On the north side of the hall there are two rooms which correspond to those on the south side just described, the small one being occupied by Mr. O. L. Pruden, the assistant secretary since General Grant's time and the custodian of the office books as well as of the traditions which govern the public social routine of the executive mansion. In his room sits the telegraph clerk at his instrument, and by the window is a telephone, which saves a great amount of messenger service between the president and the departments. Occasionally a congressman, with less ceremony than discretion, attempts to get an appointment with the ear of the president over the telephone, and there is a record of a stage earthquake produced in the private secretary's room by a furious congressman who found the telephone ineffective and his Olympian style even less so. Notwithstanding that it is almost the sole modern improvement in the White House, President Cleveland was seen at the telephone but once, and then, needless to say, not on call.

On the north side of the hall there are two rooms which correspond to those on the south side just described, the small one being occupied by Mr. O. L. Pruden, the assistant secretary since General Grant's time and the custodian of the office books as well as of the traditions which govern the public social routine of the executive mansion. In his room sits the telegraph clerk at his instrument, and by the window is a telephone, which saves a great amount of messenger service between the president and the departments. Occasionally a congressman, with less ceremony than discretion, attempts to get an appointment with the ear of the president over the telephone, and there is a record of a stage earthquake produced in the private secretary's room by a furious congressman who found the telephone ineffective and his Olympian style even less so. Notwithstanding that it is almost the sole modern improvement in the White House, President Cleveland was seen at the telephone but once, and then, needless to say, not on call.

## IT'S IN THE BLOOD

and you can't get it out even if you drink a river full of "blood medicines."

Impurity of blood is caused only by the failure of the Kidneys, the natural purifiers of the blood, to filter out the impurities that come from the waste tissues and ashes of the food.

If you are tired, dull, aching and suffering greatly from a combination of ailments, you may be sure your Kidneys are clogged and inactive. Cure your Kidneys and the blood will take care of itself. You can be
